**DESCRIPTION:**

I. General Description: Some students did not respond to the initial invitation or the emails. In an effort to make contact with them, some of the students were called or tracked down in classes.

II. Purpose & Relationship to Objectives of TBP: The purpose of the calls was to increase membership and show the students that the organization cares.

III. Organization & Administration: (in conjunction with another group?)  Yes  No  
Phone numbers were obtained from the school directory where the students had made them public. Other students were discussed with the members and tracked down in engineering classes. The students were asked if they received the invitation and asked if they had any questions since they did not respond. No pressure was put on anyone to join.

IV. Cost & Personnel Requirements: There was no cost for local calls and meetings.

V. Special Problems: There were no special problems encountered.

VI. Over-all Evaluation/Results (Be Specific): The overall outcome of the project was beneficial. Some students had not read their mail thinking it to be spam. Some never received their invitation. Some students do not check their email frequently. The contact was appreciated by many especially those who found out about the invitation only through our call. Some joined just on the basis of our effort.

VII. Index of Exhibits: None.
