Chapter: ___IN-A_____
Project number: ___1___

INSTRUCTIONS: Please complete each of the seven sections below. Any additional information which may be helpful to another chapter would also be appreciated; however, do not send extraneous material that is not beneficial.

Project name: ____Envelope Stuffing_____
Date(s) of Project: _____8/30/16_____

Project area: ___Community/ ___University/ ___Profession/ X Chapter/ ___Education/
Liberal Culture College Engineering Social Prof. Dev.

Number of persons who participated in this project
Members: _20__ Electees: ___
(Please attach a list of names.)

Hours spent on this project. Organizing: ___ Participating: 3___

DESCRIPTION:

I. General Description: ____The officers and active members get together to stuff the envelopes for the eligible members of TBP.

II. Purpose & Relationship to Objectives of TBP: ____The purpose of the event is to get members involved and excited for the upcoming semester. It is also a good way for members to see eligible candidates and reach out to them personally.

III. Organization & Administration: (in conjunction with another group?) ___ Yes X___ No

IV. Cost & Personnel Requirements: ______ There is no cost associated with the event. We needed at least ten people to get this completed quickly.

V. Special Problems: There were no specific problems we ran into, as this is a tradition at the beginning of each semester.

VI. Overall Evaluation/Results (Be Specific): ____ The event was successful. Members had a chance to socialize and catch up after the summer. We also successfully completed what needed to be completed.

Chapter Project Report

INSTRUCTIONS: Please complete each of the seven sections below. Any additional information which may be helpful to another chapter would also be appreciated; however, do not send extraneous material that is not beneficial.

Project name: Information Session
Date(s) of Project: 9/6-8/16

Project area: Community/University/ Profession/ Chapter/ Education/ Liberal Culture/ College/ Engineering/ Social/ Prof. Dev.

Number of persons who participated in this project
Members: 10  Electees: 50
(Please attach a list of names.)

Hours spent on this project. Organizing: Participating: 2

DESCRIPTION:

I. General Description: During our fall information sessions, our officers who are available put on a presentation to draw eligible members into the initiation process to become members.

II. Purpose & Relationship to Objectives of TBP: This is a way for our chapter to reach out to eligible members and allow more people to know about TBP.

III. Organization & Administration: (in conjunction with another group?) Yes  No

IV. Cost & Personnel Requirements: We needed all of the officers to come to present at the event.
V. Special Problems: 
None.

VI. Overall Evaluation/Results (Be Specific): Our presentation could be improved to entice more students to join TBP. However, the information sessions are clear and allow students to meet with current members to talk about the benefits of joining.

Project name: All Member Meeting-Marathon Date(s) of Project: 9/8/16

Project area:  X Profession/ Chapter/ Social Prof. Dev.

Number of persons who participated in this project Members: 20____ Electees: 35_
(Please attach a list of names.)

Hours spent on this project. Organizing: 5____ Participating: 1____

DESCRIPTION:

I. General Description: At our first All Member Meeting, we invited Marathon to talk about their company and the opportunities for engineers. We provided food and allowed participants to bring resumes and talk to recruiters.

II. Purpose & Relationship to Objectives of TBP: This allowed participants a professional engineering opportunity to network.

III. Organization & Administration: (in conjunction with another group?) Yes  x No
IV. Cost & Personnel Requirements: ___It cost about $100 for the food.______________________________

V. Special Problems: ____We had to work hard to arrange schedules for members to be able to attend the meeting at the inflexible schedule of Marathon.__________________________________________

VI. Overall Evaluation/Results (Be Specific): ___This AMM was a great way to start the semester. The presentation was exciting and fun. The members enjoyed asking questions and talking to one another.__________________________________________

(Please attach a list of names.)

Hours spent on this project.  Organizing: 2____  Participating: _3_

DESCRIPTION:
I. General Description: Members contributed to a potluck. We grilled out at a member’s home and invited all of the initiates. It was a social to get to know the new candidates to TBP.

II. Purpose & Relationship to Objectives of TBP: This event was crucial in cultivating a feeling of community in the TBP organization.

III. Organization & Administration: (in conjunction with another group?) Yes x No

IV. Cost & Personnel Requirements: Each member that brought food contributed with their own money. The only cost to TBP was the sodas that were provided.

V. Special Problems: We wanted to make sure students were encouraged to come and the time or place was not inconvenient. So, we worked hard to ensure the location was within walking distance for every student.

VI. Overall Evaluation/Results (Be Specific): This is an annual event that we plan to continue. It was casual and low-stress. It allowed members to interact with engineers from other disciplines.

Project name: Happy Hollow Elementary School STEM Tour Date(s) of Project: 9/23/16
DESCRIPTION:

I. General Description: The Happy Hollow Elementary School STEM Tour was a full day field trip for 200 sixth grade students from a local West Lafayette school. The students were split up in nine groups and toured different areas on campus to excite them about STEM fields. Students had the opportunity to visit Purdue’s VOSS Solar System Model to learn about Engineering Projects in Community Service (EPICS), the solar system, and the engineering design process. They also went to the Envision Center to explore computer graphics, advanced visualization, and other innovative technologies. The groups filled the rest of their day with a Civil Engineering tour where they learned about different aspects of Civil Engineering from current Purdue students, a Society of Women in Engineering activity where they created a toothbrush robot (“Bristle Bot”), an Electrical Engineering Honors Society activity where they used simple principles to create a speaker, and an Institute of Industrial Engineering activity where they learned the ideas of optimization while making paper airplanes.

II. Purpose & Relationship to Objectives of TBP: The primary purpose of this event was to engage students in the idea of pursuing a STEM related field in their education. However, this event involved over fifty Purdue University students who took the time out of their day to help inspire these students and share their passion for engineering. A key objective of Tau Beta Pi is to “foster a spirit of liberal culture in engineering colleges.” This event allowed members to do just that, while also giving back to the community.

III. Organization & Administration: (in conjunction with another group?) X Yes ___ No

On the administrative side, Tau Beta Pi worked with the teachers at Happy Hollow Elementary School. This involved one main contact, the head of the sixth grade department. In order to run this...
Purdue University Projects 2016-2017

event smoothly, Tau Beta Pi worked with many other groups on campus. The organizations to help run the events included Purdue Society of Women Engineers, Purdue EPICS, Eta Kappa Nu, Institute of Industrial Engineers, and Civil Engineering Ambassadors. The tour itself needed volunteers to help escort the groups from event to event, including volunteers from Purdue Engineering Student Council, Sigma Gamma Tau, Golden Key Honors Society, and Pi Tau Sigma. In addition, the Purdue University Police Department was also involved to ensure safety.

IV. Cost & Personnel Requirements: Each student received a drawstring bag, amounting in a $500 cost. Each group had a “beacon” to help designate which volunteer to follow, amounting in a $250 cost. In total, around fifty volunteers were needed to tour the groups through campus. From 9AM to 2PM, there needed to be a minimum of nine volunteers at all times. However, with the other organizations’ events, another thirty students were involved to run them.

V. Special Problems: This tour was held on a day classes were in session. This made organizing the students, recruiting volunteers, and finding space for the students very challenging. It was crucial that the schedules were seamless to ensure that no students were lost and the schedule stayed on time.

VI. Overall Evaluation/Results (Be Specific): Overall, the students had a fantastic field trip and learned a lot about STEM fields. Many of the students’ favorite activity was the Society of Women Engineers activity in which the students made their own robot. The students were engaged the entire day, asking questions and working hands on. The volunteers were well-aware of their responsibilities and responded well when issues arose. At the beginning of the day, the sixth grade department head changed the bus drop-off locations, causing some of the volunteers to be without a group of students. The volunteers were able to identify the problem and be flexible enough to shift roles to ensure each group was on the correct schedule. Throughout the day, the students and teachers felt calm and excited. Each event was prepared and well thought out, with volunteers who were genuinely passionate about their fields.

Number of persons who participated in this project Members: ___20___ Electees: ___29___
(Please attach a list of names.)

Hours spent on this project. Organizing: ___4___ Participating: ___1___
I. General Description: Professor Dan Dumbacher came to speak to our organization about his career, life lessons, and study abroad program. Food was provided for all who participated.

II. Purpose & Relationship to Objectives of TBP: This was a great way for members and initiates to learn about a professor on campus and his unique experiences.

III. Organization & Administration: (in conjunction with another group?) Yes  No

IV. Cost & Personnel Requirements: The food was the cost at about $100.

V. Special Problems: None.

VI. Overall Evaluation/Results (Be Specific): The event was broad enough for all engineers to relate to. The professor was interesting and engaging.

VII. Index of Exhibits: The Tau Beta Pi Association Chapter: IN-A Project number: 7

INSTRUCTIONS: Please complete each of the seven sections below. Any additional information which may be helpful to another chapter would also be appreciated; however, do not send extraneous material that is not beneficial.

Project name: Game Night Date(s) of Project: 11/4/16

Project area: X Community/ University/ Profession/ X Chapter/ Education/ Liberal Culture College Engineering Social Prof. Dev.
Number of persons who participated in this project

Members: 5  Electees: 15

(Please attach a list of names.)

Hours spent on this project.

Organizing: 3  Participating: 2

DESCRIPTION:

I. General Description: Game Night as a simple social for Tau Bates to get together in a relaxed setting and play video and board games.

II. Purpose & Relationship to Objectives of TBP: A big initiative of our chapter is to give members a chance to get to know engineers from other disciplines.

III. Organization & Administration: (in conjunction with another group?) Yes  No

IV. Cost & Personnel Requirements: Food was the cost at about $25.

V. Special Problems:

None.

VI. Overall Evaluation/Results (Be Specific): We wish the even would have had a higher turnout. The members that did come enjoyed the event. Playing Super Smash Brothers was the highlight, an important thing to keep in mind for next year.

IV. Cost & Personnel Requirements: None

V. Special Problems: Had to work with transportation to get volunteers to the locations.

VI. Overall Evaluation/Results (Be Specific): Because of being on a Saturday, it was more difficult to get members who were free for longer periods of time. The volunteers enjoyed service and wanted to do it again.

The Tau Beta Pi Association
Chapter: IN-A
Chapter Project Report
Project number: 20

INSTRUCTIONS: Please complete each of the seven sections below. Any additional information which may be helpful to another chapter would also be appreciated; however, do not send extraneous material that is not beneficial.

Project name: Other Pi Day
Date(s) of Project: 4/3/17
Project area: Community/ Liberal Culture
University/ College
Profession/ Engineering
Chapter/ Social
Education/ Prof. Dev.

Number of persons who participated in this project Members: 14 Electees: 
(Please attach a list of names.)

Hours spent on this project. Organizing: 2 Participating: 4
DESCRIPTION:

I. General Description: We put up a booth on campus and sold slices of pie and shared about Tau Beta Pi. We had a poster with Tau Beta Pi trivia to get the word out about TBP.

II. Purpose & Relationship to Objectives of TBP: We advertised about TBP.

III. Organization & Administration: (in conjunction with another group?) Yes

IV. Cost & Personnel Requirements: All costs were covered by the sale of the pie.

V. Special Problems:

VI. Overall Evaluation/Results (Be Specific): This event was very popular and successful. Members were able to reach out to student on engineering campus.
