DESCRIPTION:

I. General Description: Members of Tau Beta Pi stood in a high traffic hallway right before finals giving out candy canes with information about what TBP is attached to the candy canes.

II. Purpose & Relationship to Objectives of TBP: This helped to spread the word to many people what TBP is and that we have a presence on campus. It helped in our goal of being more active in the school and community.

III. Organization & Administration: (in conjunction with another group?) Yes No

IV. Cost & Personnel Requirements: $153.65 Members worked in teams of two where one person attached to information to the candy canes and the other handed them out.

V. Special Problems: We had a couple of people that kept looping through the area trying to get as many candy canes as possible. In future, we will discuss with members how to approach a situation like this.

VI. Overall Evaluation/Results (Be Specific): This event went fairly well. The one difficulty is that often people would eat the candy canes without reading the information about TBP. In the future we will approach the giving of the information in a new way.

DESCRIPTION:

I. General Description: Tau Beta Pi members gathered and set up a table to inform students on campus about our organization during Michigan Tech’s annual Spring Fling celebration.

II. Purpose & Relationship to Objectives of TBP: We are constantly attempting to spread the word around campus about what Tau Beta Pi is and the benefits of joining. This was a great way to hit a lot of people in one day.

III. Organization & Administration: (in conjunction with another group?) Yes No

Spring Fling is organized by the Memorial Union Board at Michigan Tech, so we coordinated with them about a place to set up our table.

IV. Cost & Personnel Requirements: None

V. Special Problems: The main problem that we have with this type of activity is that it’s hard to tell people that you have to be invited to the group, they can’t just sign up, which is a big part of what Spring Fling is about.

VI. Overall Evaluation/Results (Be Specific): Members enjoyed participating in this outdoor event because we didn’t have many outdoors events this semester. They also enjoyed the fact that they got to interact with one another while they were manning the table.
