2. Project Evaluation

i. General Description

This week, students were helped in classes Calc 1&2, Material Science, Computer Programming Stuff, and Circuits

TBP tutoring sessions took place every Wednesday night from 7 to 9pm. They provided an opportunity for underclassman engineering students to ask TBP members questions about homework, projects, and review for upcoming exams. Every session had at least 2 members present as tutors. The sessions were organized by the Vice President, who sent out a shared Excel sheet for members to sign up for tutoring slots. Engineering professors were also contacted to obtain the dates of their exams. The Wednesday before a major exam, members well-versed in the topic would hold review sessions during the tutoring time.

ii. Purpose and Relationship to Objectives of Tau Beta Pi

The purpose of the tutoring sessions was to provide academic support for underclassman engineering students. It was also a way for upperclassman to provide mentorship to their younger colleagues. Support from peers can be very beneficial to the learning process for younger students.

2. Project Evaluation

i. General Description

TBP tutoring sessions took place every Wednesday night from 7 to 9pm. They provided an opportunity for underclassman engineering students to ask TBP members questions about homework, projects, and review for upcoming exams. Every session had at least 2 members present as tutors. The sessions were organized by the Vice President, who sent out a shared Excel sheet for members to sign up for tutoring slots. Engineering professors were also contacted to obtain the dates of their exams. The Wednesday before a major exam, members well-versed in the topic would hold review sessions during the tutoring time.

ii. Purpose and Relationship to Objectives of Tau Beta Pi

The purpose of the tutoring sessions was to provide academic support for underclassman engineering students. It was also a way for upperclassman to provide mentorship to their younger colleagues. Support from peers can be very beneficial to the learning process for younger students.

Assisted with Quiz Bowl at Ada High School

Activities to participate in this term (ideas)

Hardin County Invitational Quiz Bowl at Ada High School will be held Thursday, 3/17/22.

Readers and timers are needed. Your help will be needed in the late afternoon/early evening: ~3:15 to 7:00 p.m. If you can help, let Prof. Laird know.

TBP chapters are encouraged to host a Pi Day event (3/14/22)

Last year we hosted a Tau Beta Pi 5K Virtual Run/Walk. Do it this year? Have participants complete it during the week after break and share photos of themselves with bib/medal with Prof. Laird.

Andrew Cochran and Bret Lane will work on one for this year.

Prof. Laird has a few of the medals in her office plus some extra wood to make more medals.

Need to locate the electronic versions of the bib and medal designs (Brett to contact Jackson Brandstaetter? Jackson coordinated that for the group last year.)

Community Assistance Days in Ada (March/April?)

Habitat for Humanity is coordinating. ASCE is assisting Habitat - maybe? Perhaps TBP could help out on one or more days?

Bret Lane to find out more about what/when/where these events are taking place and let members know

Cook out/Bonfire for Seniors

Courtney Ream will work with Prof. Laird to coordinate it. Juniors will need to provide help.

24th Annual President's Leadership Dessert, Wednesday, May 4, 2022.

TBP received e-mail about this. Discussion occurred about leadership in the group.

Workshop ideas?

Skills Workshops - are there any skills that one of our members has that they would like to share with CoE students?

For example: IEEE is hosting Nathan Clark (also a TBP member) to share his knowledge on starting a company and on creating
