Tau Beta Pi
Chapter Project Report

Texas Alpha Chapter
Fall 2016 to Spring 2017
Executive Summary

The Tau Beta Pi Texas Alpha Chapter at the University of Texas at Austin initiated 81 Tau Beta Pi candidates into our chapter during the 2016-2017 academic year. These members showed integrity and excellence in engineering through the completion of fifteen candidate requirements in tandem with maintenance of outstanding scholastic and extracurricular achievements. Some of those requirements include attending participating in five chapter social events, completing nine hours of community service with the chapter, contributing one hour to internal chapter activities like fundraising, and attending at least one fireside hosted by a distinguished faculty member in the Cockrell School of Engineering. This chapter report contains a summary of all 133 events sponsored by our chapter that our candidates participated in.

Our diligent, semester long initiation process is designed to insure that our candidates are honorable engineers and not just high-GPA students. The social events provide opportunities for our candidates to develop interdepartmental connections with other high-achieving Cockrell School of Engineering students in the Texas Alpha chapter. Firesides allowed those candidates to connect with, glean valuable insights from and obtain career advice from professors outside a traditional academic setting.

Furthermore, our most committed, stressed, and important requirement is the fulfillment of at least nine hours of community service. Although nine hours does not seem like a lot, it can become a challenge as our candidates learn to balance TBP activities and their engineering course load during the initiation process. The goal of the community service hours is to motivate our candidates to help the community we all live in, whether it is helping to feed and interact with homeless people, cleaning up our local parks, or tutoring middle schoolers in STEM subjects. In addition, all candidates are broken into teams to set up their own community service projects. Through these teams, the candidates develop personal relationships with engineering students from diverse backgrounds while working together to improve the greater Austin area community. As evidenced from the events put together during both the fall and spring semester, our chapter can already see improvements in our service requirement. In total, Texas Alpha candidates were supposed to complete 729 hours of community service hours, instead they put in more than 900 hours towards the improvement of the Austin community, a good sign that some of our candidates will continue to volunteer.

A huge target for the Texas Alpha chapter is education through the K-12 initiative. Throughout both semesters, the Texas Alpha chapter sent a group of dedicated actives and candidates to help tutor students at Lyndon B. Johnson high school and Lanier High School in mathematics and science, the basic building blocks for engineers. These two schools struggle with low graduation rates and poor test scores in math and science, so our chapter’s involvement in building the skill-set and confidence of struggling students is critical to efforts to improve their chances of success.

Our chapter also volunteers regularly for other K-12 events that happen right on campus. Every year, Texas Alpha gets involved with Explore UT, a day where K-12 students arrive from across the state to explore the UT Austin campus, and Introduce a Girl to Engineering Day, where K-12 girls come to the Cockrell School of Engineering to participate in engineering-related games and activities to develop their interest in pursuing STEM subjects in college. During these events, Texas Alpha has built a trebuchet, a machine used in medieval times, to let the kids launch water balloons and learn about projectile physics. We get to teach history by explaining the medieval uses of the trebuchet, physics by showing how a lever and a counterweight can fling an object in the air, and how much fun it can be to learn about both!

Texas Alpha also likes to keep traditions, just like the University of Texas at Austin does. This year we continued to host the Texas Alpha Alumni Tailgate. The Alumni Tailgate, which occurred this year during the Texas vs. Kansas State football game, is not just an opportunity to have a fun time while watching the game, but
also to bring Texas Alpha alumni together. By playing some field games like volleyball and cornhole, and eating great barbeque, everyone gets to interact with one another, and share stories and advice.

As we move into the chapter’s second century of existence, Texas Alpha strives to promote integrity and excellence in engineering by continuing to have a strict and rigorous initiation process. At the same time, we also try to increase active involvement by giving incentives to continue to participate in TBP events even after initiation. This year, we recognized several active Texas Alpha members who went above and beyond to contribute to the chapter’s social and service activities throughout both semesters. As we move into the chapter’s 2nd century, our officer team and active members will continue to provide an inclusive environment for our membership to develop connections, build their professional experience and improve the local community through community service.

Chapter Project Report

Chapter: TX-A
Project number: 
New: X
Recurring: 

Project name: Engineering Merit Badge at STEM Adventure Campout

Date(s) of Project: 9/24-9/25

Project area: Service (and Social)

Number of persons who participated in this project
Members: 2     Electees: 3
(List of names is included below.)

Average number of hours per person
Organizing: 4     Participating: 8

DESCRIPTION:

I. General Description: We went to Lost Pines Boy Scout Camp in Bastrop to help scouts earn their Engineering Merit Badge. Each volunteer taught scouts about a different aspect of engineering as the scouts rotated through different stations. Then the volunteers helped the scouts build catapults. Some volunteers also camped out at Lost Pines.

II. Purpose & Relationship to Objectives of TBP: To help the community and to promote careers in STEM by using our engineering knowledge and skills. Also, to get to know other TBP candidates and members.

III. Organization & Administration: This was done in conjunction with the Boy Scouts of America Capital Area Council and Craig Holloway, the teacher of the Engineering Merit Badge.

IV. Cost & Personnel Requirements: The cost was $52 to rent a tent and two sleeping bags for the overnight campers.

V. Special Problems: The cost was relatively high because we rented the camping gear from Greg Gym. Ideally, it’d be good to see if any of the TBP volunteers have a tent/sleeping bag they could bring.

VI. Over-all Evaluation/Results: 5 volunteers were able to make it to a big event on short notice. We had a good time and did some good volunteer work. Craig was very grateful for the help. It was a huge but worthwhile time commitment. This event happens annually and they would love to have TBP continue volunteering with them.

Candidates: Zeke Chan, Eden Williams, Hayden Messamore

Actives: Elaine Lui (officer), Joe Retter (officer)

Project name: Shoal Creek Clean-Up

Date(s) of Project: 10/01/2016

Project area: Service

Number of persons who participated in this project
(List of names is included below.)

Members: 1
Electees: 15

Average number of hours per person

Organizing: 0
Participating: 3

DESCRIPTION:

I. General Description: Through Keep Austin Beautiful (KAB), TBP TX Alpha has adopted a quarter-mile segment of Shoal Creek. To organize the cleanup, KAB provided gloves, bags, garbage collectors, and first aid kits. The group spent 3 hours collecting litter alongside the creek and the trail.

II. Purpose & Relationship to Objectives of TBP: To help the community and the environment by keeping the Shoal Creek area clean as well as give candidates an opportunity to meet and socialize with each other.

III. Organization & Administration: Organized through Keep Austin Beautiful and TBP TXA

IV. Cost & Personnel Requirements: None

V. Special Problems: None

VI. Over-all Evaluation/Results: The event went very well, and as a group we collected about 10 bags worth of litter. We completed cleaning our section before the 3 hours had elapsed, so we continued cleaning in sections both north and south of our adopted section.

Project name: STARRY Volunteering

Date(s) of Project: 10/15/2016

Project area: Service

Number of persons who participated in this project
Members: 2
Electees: 10

(List of names is included below.)

Average number of hours per person
Organizing: 0
Participating: 3

DESCRIPTION:

I. General Description: Volunteers worked on scrapbooking books for foster children (ages 2-4). Each foster child receives a scrapbook as required by Texas law. The majority of volunteers decorated and designed pages that would be filled in by the children who receive the books. Other volunteers organized clothing donations in the STARRY “boutique,” where children can go and choose any clothing they like.

II. Purpose & Relationship to Objectives of TBP: To help the community by helping foster children feel special and appreciated through having their own personal scrapbooks and being able to have a fun experience choosing clothing.

III. Organization & Administration: Organized through STARRY Austin and TBP TXA

IV. Cost & Personnel Requirements: None

V. Special Problems: None

VI. Over-all Evaluation/Results: The event was very enjoyable and productive. As a group, we were able to sort all of the week’s clothing donations as well as complete several scrapbooks. Everyone worked together to finish scrapbooks and clean up thoroughly before we left STARRY.

Candidates: Cynthia Chu, Carina Tran, Alyssa Linares, Olivia Schmitz, Daniel Teal, Ryan Goerlitz, Diana Zhang, Michael Chen, Salil Deshpande, Matt Rosenburger

Actives: Belle Parizot(officer), Carol Huang(officer)

Date(s) of Project: 10/22

Project area: Service

Number of persons who participated in this project
(List of names is included below.)

Members: 6  Electees: 21

Average number of hours per person

Organizing: 0  Participating: 3.5

DESCRIPTION:

I. General Description: We planted trees at Barkley Meadows in Delle Valle, TX. This entailed breaking up chunks of dirt, shoveling the dirt into holes, and placing the trees in the holes.

II. Purpose & Relationship to Objectives of TBP: To help the community and beautify the Austin area.

III. Organization & Administration: This was done in conjunction with TreeFolks, a non-profit organization which grows Central Texas urban forests through tree planting, education and community partnerships.

IV. Cost & Personnel Requirements: There was no cost for this event other than gas money to get to the park.

V. Special Problems:

VI. Over-all Evaluation/Results: The participants seemed to really enjoy this event. The TreeFolks coordinators were well organized and very kind. Together with the other volunteer groups that were at Barkley Meadows, we planted 62 trees, and the park looked much nicer as a result.

Candidates: Jihwan Lee, Justin Leung, Atul Nayak, Angela Liu, Weston Hill, Peili Lee, Michael Chen, Grace Zhuang, Angel Zhang, Nicholas Possis, Carina Tran, Graham Reitz, Ryan Boehm, Michael Bloom, Hannah Wang, Mark Macnoll, Kathryn Loeffler, Ethan Freeburg, Miguel Armenta Ochoa, Kaylee Clatanoff, Erik Ballesteros

DESCRIPTION:

I. General Description: Volunteers helped clean decorations and booths after a 5K Halloween-themed race in Round Rock, TX. Proceeds from the run benefitted The Round Rock Police Officer Association, RRISD Partners in Education, and Round Rock Police Blue Santa.

II. Purpose & Relationship to Objectives of TBP: To help the community by providing service for an event raising money for Austin organizations.

III. Organization & Administration: Organized by Texas Alpha TBP in coordination with The Round Rock Police Officer Association, the Round Rock ISD Partners in Education, and Round Rock Operation Blue Santa

IV. Cost & Personnel Requirements: None

V. Special Problems: None

VI. Over-all Evaluation/Results: The event was very enjoyable and productive. Our group stayed until the very end of the event with only the event coordinators. We made sure we helped in every capacity possible and did not leave until everything was done.

Candidates: James Albritton, Salil Deshpande, Peili Lee, Graham Reitz, Yanan Wang, Eden Williams, Bailey Sikorski, Mohammad Behnia, Marjorie Dininger, Daniel Teal, Hannah Wang

Project name: Team Chameleons Service Project at the Austin Yellow Bike Project
Date(s) of Project: 11/4/2016
Project area: Service

Number of persons who participated in this project
(List of names is included below.)

Average number of hours per person

Members: 4
Organizing: 0.5
Electees: 1
Participating: 3

DESCRIPTION:

I. General Description:
As a team, we went to the Austin Yellow Bike Project (YBP) and volunteered on a Friday night. YBP is a non-profit organization that serves to empower the city of Austin by providing low cost bicycles. YBP also serves to provide bikes to those who cannot afford them, while at the same time aiming to teach locals about bicycle maintenance and construction.

II. Purpose & Relationship to Objectives of TBP:
As an organization, one of TBP’s three main pillars is service. The goal of this event was to show candidates the responsibility that we have to give back to our community and hopefully show them the satisfaction of doing things for a good cause. Additionally, the event improved team unity by creating opportunities for team members to talk with each other while serving. The event additionally contributed to each candidate’s service requirements for initiation into the organization.

III. Organization & Administration:
The Team Chameleons officers figured out a good date for everyone on the team to volunteer. They also called those working at YBP and found appropriate volunteering hours to go on a walk-in basis.

IV. Cost & Personnel Requirements:
The event did not have any associated fees.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
The volunteer work that we were able to accomplish was both engaging and had a concrete purpose. It was great for us to help give back to the community that we love so much in Austin while also learning a good deal about the various components and workings of bicycles.

Candidates: Michael Bloom, Marjorie Dininger, Jihwan Lee, Angela Liu, Atul Nayak, Carina Tran
**Project name:** Feeding the Homeless with UUMC

Project area: Service

Number of persons who participated in this project
(List of names is included below.)

Members: 3  Electees: 8

Organizing: 2  Participating: 3

DESCRIPTION:

I. General Description: We helped keep Austin's park trails clean, cleared of brush, easily visible, and easy to travel on. Additionally, we helped to block off trails that were created by hikers into parts of the greenbelt that are protected and not intended to be hiked on in order to preserve Austin's wildlife and their ecosystem. In order to do this, we took clippers and trimmed down trees and branches that were in the way of the path and blocking it. Additionally, we used this brush in order to block off the trails that should not be travelled on. Cleaning up these trails allows Austinites to enjoy the greenbelt safely while keeping our greenbelts clean and preserving our precious wildlife.
II. **Purpose & Relationship to Objectives of TBP:** To help the community and make Austin a better place.

III. **Organization & Administration:** This was done in conjunction with Austin Parks Foundation. “Austin Parks Foundation (APF) is a non-profit organization devoted to building partnerships to develop and maintain parks, trails, and open space in Austin.”

IV. **Cost & Personnel Requirements:** None

V. **Special Problems:** None

VI. **Over-all Evaluation/Results:** This was a fun and impactful service event. Despite the early time of day and having to work in the rain, the volunteer morale was excellent. We helped clear Austin’s trails, so that, many Austinites can enjoy the greenbelts of Austin.

**Candidates:** Bailey Sikorski, Marjorie Dininger, Ryan Boehm, Zeke Chan, Michael Chen, Weston Hill, Connor Kraus, Allen Thai

Project name: Team Honey Badgers Service Project with Scare for a Cure

Date(s) of Project: 11/5/2016

Project area: Service

Number of persons who participated in this project
(List of names is included below.)

Members: 9
Electees: 2

Average number of hours per person
Organizing: 1
Participating: 4

DESCRIPTION:

I. General Description:
For our team service project, we ventured to Manor, Texas to assist with the deconstruction of a haunted house set. The organization Scare for a Cure, which builds and runs the haunted house event annually, hosts the paid event and donates proceeds to reputable cancer research groups.

II. Purpose & Relationship to Objectives of TBP:
The Scare for a Cure event helped promote team unity via socialization and cooperation among all Honey Badgers present, while simultaneously providing an opportunity for attendees to fulfill TBP’s service pillar by assisting an effort that raises funds for cancer research.

III. Organization & Administration:
Organization of the Scare for a Cure volunteer effort required deciding upon a time among the Honey Badgers team members and in coordinating with Scare for a Cure administrators.

IV. Cost & Personnel Requirements:
None.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
The entire volunteering experience was unique and rewarding (if a little dreary due to the rainy weather and abundance of mud). Candidates and members alike got a chance to see the magic (or really, the engineering) behind a massive haunted house operation, and many indicated interest in returning to volunteer with Scare for a Cure.

DESCRIPTION:

I. General Description: Orange Bike Project is a student-led organization that mainly repairs impounded, donated, and abandoned bikes and provides repaired bikes for public rentals and sale. This organization is tied to the Texas Department of Transportation (TxDoT) to promote reusing waste and environmental friendly transportation. Our team volunteered at their bike shop to disassemble bike parts that were donated in preparation for later usage. We learned a few things about repairing bikes from the student workers. At the end, they gave us a bike that required gear tuning for us to repair it as a team. Overall, it was a fun and educational experience for all of us.

II. Purpose & Relationship to Objectives of TBP: Contribute to an environmental cause while providing for the local community.

III. Organization & Administration: This event was organized with the approval of the Orange Bike Project (OBP), which was run by students of The University of Texas at Austin. OBP has regular shop hours for people to come in and volunteer, repair their own bikes, and ask for bike related help.

IV. Cost & Personnel Requirements: None

V. Special Problems: None

VI. Over-all Evaluation/Results: It was a fun experience for all of us to learn about the different parts of repairing a bike and have hands-on teamwork experience. We believed that we all took something away from this educational and service-oriented event.

Candidates: Miguel Armenta Ochoa, Matt Rosenberger, Nicholas Possis, Mohammad Behnia, Christina Edgar, Allen Thai, Graham Reitz

Organizing: .5  Participating: 1

DESCRIPTION:

I. General Description:
We filled water balloons to save over night and use for Introduce a Girl to Engineering Day the next day

II. Purpose & Relationship to Objectives of TBP:
The purpose of Girl Day is to educate young girls about engineering and to try to get them excited about engineering so that they consider it as a major when they apply for college. We were filling water balloons to fire of with a trebuchet so we could show girls some interesting aspects of engineering and explain how it works.

III. Organization & Administration:
Organized with the help of WEP (Women in Engineering Program).

IV. Cost & Personnel Requirements:
N/A; used water balloons from last year

V. Special Problems:
There were not enough faucets in the mechanical engineering building that were able to fill the water balloons so we had to use water bottle fillers to fill them. We also had a few too many people helping only two could reasonably help, one filling the water balloons and the other tying them.

VI. Over-all Evaluation/Results:
We filled up all of the water balloons leftover from the previous year, which was the perfect amount for the next day.

DESCRIPTION:

I. General Description:
We set up a trebuchet on the CPE lawn and allowed the girls to fire the trebuchet and try to catch the water balloons.

II. Purpose & Relationship to Objectives of TBP:
The purpose was to educate young girls about engineering and to try to get them excited about engineering so that they consider it as a major when they apply for college. By explaining the mechanism of the trebuchet and letting them fire it off, they were able to learn a little about engineering while having fun at the same time.

III. Organization & Administration:
Organized with the help of WEP (Women in Engineering Program).

IV. Cost & Personnel Requirements:
N/A, water balloons used from last year

V. Special Problems:
The trebuchet was having some problems firing for the first hour but after a little bit of work we were able to have it firing consistently. We also had a problem with water balloons drying out in the sun but we soaked them in water and covered the cooler to prevent all of them from exploding mid air.

VI. Over-all Evaluation/Results:
Overall the girls really enjoyed getting to set off the trebuchet and we had tons of girls participating in trying to catch them at the end.

Number of persons who participated in this project
Members: 4
Electees: 4
(List of names is included below.)

Average number of hours per person
Organizing: 1
Participating: 2.5

DESCRIPTION:

I. General Description:
Explore UT is a giant open house for the University of Texas to welcome children of all ages and their parents. Historically, we set up a trebuchet on the CPE lawn and allow children to fire the trebuchet and try to catch the water balloons. Due to last minute rain this year, we split our volunteers among other engineering honor organizations (HKN and PTS) to help run their own Explore UT exhibits.

II. Purpose & Relationship to Objectives of TBP:
The purpose was for our interdisciplinary engineering honors organization to help our fellow organizations educate kids about engineering and get them excited about it when they come to college. With PTS, our TBP members presented various model engines to visitors and with HKN, they presented the electrical components to various motors.

III. Organization & Administration:
Organized with the help of Cockrell School of Engineering.

IV. Cost & Personnel Requirements:
$0

V. Special Problems:
Rain was definitely unexpected, and we were unable to run the trebuchet. This was an upset, but our volunteers still got to volunteer with other organizations that were in need.

VI. Over-all Evaluation/Results:
Overall, it appeared the children really enjoyed learning about engines and motors. It took a little bit of coordination for the service coordinators but ran smoothly day of.

Number of persons who participated in this project
(List of names is included below.)

Average number of hours per person

Members: 1  Electees: 3

Organizing: 1  Participating: 2.5

DESCRIPTION:

I. General Description:
Feed My People is a program supported by volunteers. The volunteers help to prepare a warm breakfast to those in need. The volunteers served coffee, juice, milk, and a warm breakfast. Afterwards, we helped clean up the kitchen and dining area.

II. Purpose & Relationship to Objectives of TBP:
To help the community and make Austin a better place.

III. Organization & Administration:
Organized through Feed My People

IV. Cost & Personnel Requirements:
None.

V. Special Problems:
The only concern was making sure all participants were awake to attend.

VI. Over-all Evaluation/Results:
Though the participants did not enjoy waking up so early, they really enjoyed the experience of giving back the community. Unlike with clean-ups, the volunteers got to see the happiness of the people they were serving.

DESCRIPTION:

I. General Description:
The Sustainability Squad volunteers at most Texas sporting events to help guests sort their waste into compostable and recyclable items. They are help educate guests on important differences and rules of thumb. TBP joined the Sustainability Squad for this baseball game.

II. Purpose & Relationship to Objectives of TBP:
To help our University reduce waste in landfills and promote volunteerism in our community.

III. Organization & Administration:
Organized through Texas Athletics and Sustainability Squad

IV. Cost & Personnel Requirements:
$5 parking fee

V. Special Problems:
The only concern was finding parking in the crowded area.

VI. Overall Evaluation/Results:
Although parking took longer than expected, we got to watch a Texas baseball game and help educate guests on sustainability. Our volunteers really enjoyed the event, and we didn't get too sunburned.

</table>

**DESCRIPTION:**

**I. General Description:**

We met at the TBP office in the morning and then carpooled to Blunn Creek together. There, we were greeted by other volunteers, who lead us up a trail. At the top, we paused, and Jerry (the lead volunteer) explained that we would be helping clear brush and logs from the area so that other wildlife could grow. He explained that the trees we were cutting down could be harmful to the wildlife, because when they form a canopy, nothing is able to grow underneath. We then got to work, some of us clearing the brush while others helped saw down trees.

**II. Purpose & Relationship to Objectives of TBP:**

This service event was an opportunity to serve the Austin community in a significant and impactful way. Nature preservation, especially in the downtown area, is extremely important, and we had the chance to help out with that.

**III. Organization & Administration:**

Not organized in conjunction with another group.

**IV. Cost & Personnel Requirements:**

None

**V. Special Problems:**

None

**VI. Over-all Evaluation/Results:**

This was a great service event! There was a lot of physical labor involved, which was a nice change from the usual everyday woes of a student. Although the work got tiring pretty quickly, our members were able to keep going and accomplished a lot in just a few hours. It was rewarding to see the pile of brush we moved.

**DESCRIPTION**:

I. **General Description**:

We volunteered as food sorters for packaged foods. We were briefed on what to check for and what to throw away in order to ensure food safety, then we spent the time sorting good from bad and preparing the good food for distribution.

II. **Purpose & Relationship to Objectives of TBP**:

The Central Texas Food Bank provides food to many people who would go hungry otherwise. We sorted 4,750 meals over the course of the project. This is a project that serves underserved communities.

III. **Organization & Administration**:

We signed up on the Central Texas Food Bank’s website as a group.

IV. **Cost & Personnel Requirements**:

None

V. **Special Problems**:

None.

VI. **Over-all Evaluation/Results**:

The event went well. Many people expressed satisfaction of the scale and scope of the work that they were doing, and of the general pleasantness of the work. As mentioned earlier, 4,750 meals were prepared for delivery to needy people and charities.

**Candidates**: Mohammd Radwan, Mason Roberts, Brian Gao, Klarissa Lou, Shawn George, Kelsey Cavallaro, Akshay Naik, Emily Golla, Ben Simon, Elizabeth Delaney, John Liou, Shyon Parsa

Project area: Service

Number of persons who participated in this project
Members: 1 Electees: 9
(List of names is included below.)

Average number of hours per person
Organizing: 1 Participating: 3

DESCRIPTION:

I. General Description:
The Longhorn Run is a 5 or 10k race geared for UT students, faculty, and alumni. The event took place on campus and the surrounding area. TBP volunteered at the Post-Race Celebration that took place at the Tower. We helped keep trash bins under control during the event and helped tear down vendor booths and tents afterwards.

II. Purpose & Relationship to Objectives of TBP:
To help keep our campus clean and promote efficiency in teardown.

III. Organization & Administration:
Organized through UT Recreational Sports and UT Student Government

IV. Cost & Personnel Requirements:
none

V. Special Problems:
Note all the road closures when commuting campus, and volunteer check in at at Gregory Gym. Also, we did not have any work to do until the first 45 minutes into the event.

VI. Over-all Evaluation/Results:
It was fun to see our friends and classmates finish the race and go to the celebration. Our job was pretty relaxed too. I think the candidates enjoyed volunteering at the race as well as the free volunteer T shirts.

Project name: Team 90's Service Event at LBJ Wildflower Center

Date(s) of Project: 04/8/2017

Project area: Service

Number of persons who participated in this project
Members: 3  Electees: 5
(List of names is included below.)

Average number of hours per person
Organizing: 1  Participating: 3

DESCRIPTION:

I. General Description:
We helped clean up after the LBJ Wildflower had a large plant sale. We organized and returned unsold plants to their respective owners in the Wildflower Center.

II. Purpose & Relationship to Objectives of TBP:
The plant sale helps introduce new plants to the Texas environment when members purchase and plant wildflowers/trees near their homes. When TBP helps the Wildflower Center, we in turn are promoting a healthy environment and ecosystem.

III. Organization & Administration:
none

IV. Cost & Personnel Requirements:
none

V. Special Problems:
We went a good time of day, so there was no traffic. It was pretty warm in the late afternoon. However, if we had stayed after dusk, there would’ve been mosquitos.

VI. Over-all Evaluation/Results:
Our team enjoyed seeing all the wildflower plants and trees. The scenery was also lovely, and the weather was nice. Although some members had to do some heavy lifting, everyone had a good time.

(List of names is included below.)

Members: 2          Electees: 5

Average number of hours per person

Organizing: 0          Participating: 2

DESCRIPTION:

I. General Description: Through Keep Austin Beautiful (KAB), TBP TX Alpha has adopted a quarter-mile segment of Shoal Creek. To organize the cleanup, KAB provided gloves, bags, garbage collectors, and first aid kits. The group spent 2 hours collecting litter alongside the creek and the trail.

II. Purpose & Relationship to Objectives of TBP: To help the community and the environment by keeping the Shoal Creek area clean as well as give candidates an opportunity to meet and socialize with each other.

III. Organization & Administration: Organized through Keep Austin Beautiful and TBP TXA

IV. Cost & Personnel Requirements: None

V. Special Problems: None

VI. Over-all Evaluation/Results: The event went very well, and as a group we collected about 3 bags of trash. We also picked up stranded bags of trash we found along the creek too. It was an event that require little planning and was close to campus.

</table>

DESCRIPTION:

I. General Description:
Team 2000’s went to the Williamson County Animal Shelter to help out there. We performed tasks including sorting laundry and cleaning cages. This work provides a good environment for the pets to live in and helps the animal shelter operate.

II. Purpose & Relationship to Objectives of TBP:
The purpose of this event is for the TBP Team 2000’s to give back to community and to make a positive impact on the world around them.

III. Organization & Administration:
Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:
None.

V. Special Problems:
When we arrived at the venue, we waited for about 15 minutes for the people to give us tasks to do.

VI. Over-all Evaluation/Results:
Overall, this wasn’t the best place to do a service event as the location is far from campus, and the event itself wasn’t organized very well by the people at the shelter. Also, cleaning cages isn’t fun as pets have very dirty cages.

DESCRIPTION:

I. General Description:
Students United for Rape Elimination (SURE Walk) is a UT Austin student government agency that offers volunteer companionship on students’ walk home from campus during the late evening in order to protect the students, provide peace-of-mind when studying late at night, and ensure safety for all. TBP members and electees accompanied other UT student’s home either on golf carts to destinations around campus or on foot to destinations off campus.

II. Purpose & Relationship to Objectives of TBP:
The purpose was for our TBP members and electees to connect with their fellow UT classmates, whether within or outside of the Cockrell School of Engineering and to promote campus safety.

III. Organization & Administration:
Organized with the SURE Walk, a UT Austin student government agency.

IV. Cost & Personnel Requirements:
$0

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
Being able to meet other UT students is always a pleasant experience, and it was gratifying to know that each student we walked home reached a safe destination that evening. Overall, a pleasant way to stay up late at night.

DESCRIPTION:

I. General Description:
This meeting was the first general meeting of the semester. The officers of the TX-A chapter welcomed the new candidates and went over the requirements to become active members of Tau Beta Pi. The officers then went over the planned events for the week (until the next general meeting), including upcoming social events, service events, internal fundraising events, and professional development opportunities. For the last half of the meeting, two representatives from Accenture gave a presentation about their experiences within the company and answered questions regarding their career, Accenture's outlook, and the consulting industry as a whole.

II. Purpose & Relationship to Objectives of TBP:
The purpose of general meetings is to keep active members and candidates informed, and to encourage camaraderie and networking within the Tau Beta Pi membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

III. Organization & Administration:
This event was organized by TBP TX-A with representatives of Accenture in attendance.

IV. Cost & Personnel Requirements:
Food was provided by TBP TX-A for those in attendance.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
The first general meeting ran very smoothly, and all members and electees in attendance were very engaged during the presentation. The representatives were very impressed with the questions and commentary from our membership, and the meeting finished on time and on a positive note. One issue we faced is that the room we reserved was too small, so officers stood during the entire meeting to allow all candidates and actives to be seated.

Candidates: Alyssa Linares, Erick Meany, Bailey Sikorski, Daqi Wang, Angel Zhang, Miguel Armenta Ochoa, Erik Ballesteros, Rachael Fiala, Daniel Teal, Elizabeth Anderson, Bryce Brady, Nicholas Possis, Matt Rosenberger, Forrest...

**Actives:**
Jianming Chen, Kyle Dalal, Lucy Fang, Louis Kirkley, Ganix Ledezma, Xinlei Liu, Eley Ng, Emily Oertli, Dainah Pham, Tim Smith, Deepak Subramanian, Qiwen Zhang, Justin Zhong, Iris Jing, Bryan Luu, Jesse Xue, Jacob Adair, Kevin Li, Ryotaka Matsumoto, Daniel Victory, Colton Andrews, Amber Dressler, Sindhu Nathan, Jena Ziesmer, Daniel He, Lianne Martin, Angelique Bautista, Aadil Pappa, Wesley Yu, Daniela Barrios Santos, Ashley Bird, Brooks Clingman, Mark Li

Project name: Burger Burn #1

Date(s) of Project: 09/28/2016

Project area: Fundraising

Number of persons who participated in this project
Members: 8 Electees: 15
(List of names is included below.)

Average number of hours per person
Organizing: 3 Participating: 1

DESCRIPTION:

I. General Description:
We ran our traditional fundraising event: the Burger Burn. During this event, we set up a grill, a tent, and several tables in front of our engineering buildings. We then cooked beef burgers, veggie burgers, and hot dogs and sold these items, along with chips and drinks, to students and faculty that passed by during lunch hours.

II. Purpose & Relationship to Objectives of TBP:
This event has been our main source of fundraising for the Texas Alpha chapter. We put the profits from our Burger Burns towards our Scholarship Endowment Fund.

III. Organization & Administration:
This event was organized in conjunction with the Fire Safety, who approved our use of a propane grill to cook our food. The event was also organized in conjunction with Student Activities, who allowed us to reserve the space necessary to hold the event, and Environmental Health and Safety, who made sure that we were following the necessary codes and restrictions.

IV. Cost & Personnel Requirements:
All food and non-food items were purchased from Sam’s Club. We required all officers to help out for at least an hour for each Burger Burn, and we encouraged candidates and actives to help out as well in an effort to fulfill point requirements for the semester.

V. Special Problems:
It was a particularly windy day. The tent and tables needed extra security in order to not be blown away.

VI. Over-all Evaluation/Results:
The Burger Burn effort was exemplary. This was the first of four Burger Burns planned for the semester. Our net profits was about $280, which is very good when we look at our history for the previous year where most burger burns made profits in the $200-$300 range. The use of the Square card reader has been very helpful because it allowed us to serve
food to people who only had credit or debit card as a method of payment. For some reason, guacamole has not sold nearly as well as it had in the past. For this reason, we may need to reconsider selling it for all the remaining burger burns.

**Candidates:** Weston Hill, Kevin Lee, Paul Lee, Peili Lee, Yanan Wang, Justin Leung, Cynthia Chu, Tori Gahagan, Atul Nayak, James Albrittan, Tori Gahagan, Eden Williams, Daniel Teal, Kaylee Clatanoff, Carina Tran,

**DESCRIPTION:**

I. General Description:
This meeting was the third general meeting of the semester, which, traditionally in the TX-A chapter, is team dress-up day. At the beginning of the meeting, adhering to university policy, the officers presented a Dean of Students safety presentation. Afterward, the officers, electees, and team actives, who were dressed up according to a theme – this semester, the theme was “animals” - presented their team service projects, which ranged from building recycled bikes to cleaning up local parks. The officers then went over the planned events for the week (until the next general meeting), including upcoming social events, service events, internal fundraising events, and professional development opportunities. For the last half of the meeting, a representative from Schlumberger spoke about her experiences within the company.

II. Purpose & Relationship to Objectives of TBP:
The purpose of general meetings is to keep active members and candidates informed, and to encourage camaraderie and networking within the Tau Beta Pi membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

III. Organization & Administration:
This event was organized by TBP TX-A with a representative from Schlumberger in attendance.

IV. Cost & Personnel Requirements:
Food was provided by TBP TX-A for those in attendance.

V. Special Problems:
The corporate representative was experiencing technical issues with her flash drive (corrupted file), so her presentation was an impromptu compilation of several Schlumberger presentations.

VI. Over-all Evaluation/Results:
The third general meeting ran very smoothly, and members and electees in attendance were engaged during the Q&A session. The representatives were very impressed with the questions and commentary from our membership, and the meeting finished on time and on a positive note.

**Candidates:** Alyssa Linares, Mark Macnoll, Erick Meany, Bailey Sikorski, Angel Zhang, Miguel Armenta Ochoa, Erik Ballesteros, Christina Edgar, Rachael Fiala, Ryan Goerlitz, Daniel Teal, Edmond Xue, Elizabeth Anderson, Mohammad Behnia, Nicholas Possis, Matt Rosenberger, Forrest Sullivan, James Albritton, Salil Deshpande, Peili Lee, Graham Reitz,

Project name: Karaoke Social  

Date(s) of Project: 10/13/2016 

Project area: Social 

Number of persons who participated in this project Members: 19 Electees: 10 
(List of names is included below.) 

Average number of hours per person Organizing: 1 Participating: 1 

DESCRIPTION: 

I. General Description:  
We set up a PA system with a microphone in a classroom after our general meeting and played karaoke Youtube videos for whoever wanted to sing. 

II. Purpose & Relationship to Objectives of TBP:  
Karaoke served as a fun/creative outlet for candidates, actives, and officers who otherwise might be burdened with heavy academic loads during the week. Destressing in a group environment in this manner should therefore serve to unify our members in the pursuit of fun and whimsy. 

III. Organization & Administration:  
The TBP Texas Alpha social coordinators planned the event and acted as MCs/hosts for karaoke. 

IV. Cost & Personnel Requirements:  
No costs—all equipment was borrowed from a friend of one of the social coordinators. 

V. Special Problems:  
None. 

VI. Over-all Evaluation/Results:  
We had a great turnout for karaoke, and many candidates and actives showed off their vocal cords for their fellow Tau Beta Pians. It would have been nice if everyone chose to sing, but it's understandable that some attendees may have been too shy to perform in front of an audience. 

Candidates: Forrest Sullivan, Eden Williams, Angel Zhang, Miguel Armenta Ochoa, Matt Rosenberger, Daniel Teal, Angela Liu, Ryan Goerlitz, Atul Nayak, Erik Ballesteros, Edmond Xue, Yanan Wang, Alyssa Linares, Kathryn Loeffler, Elizabeth Anderson, Mark Macnoll

Project area: Social

Number of persons who participated in this project
Members: 10 Electees: 25
(List of names is included below.)

Average number of hours per person
Organizing: 1 Participating: 2

DESCRIPTION:

I. General Description:
We went to Top Golf around the Domain area in Austin, TX. Provenance Consulting sponsored the event, and we spent about two hours socializing, eating food, and enjoying the fun combination of golfing and games offered by the venue.

II. Purpose & Relationship to Objectives of TBP:
To promote candidate unity, have a good time, and to give candidates the opportunity to develop themselves professionally by talking to company representatives. The event allowed the officers to meet candidates (electees) on a personal level and also gave everyone the chance to unwind after a busy school week.

III. Organization & Administration:
Organized in conjunction with Provenance Consulting.

IV. Cost & Personnel Requirements:
A majority of the costs associated with the social were covered by Provenance Consulting using a company credit card. However, our Texas Alpha Chapter paid $49.78 for several Top Golf membership cards.

V. Special Problems:
None. The event went very smoothly and everyone seemed to have a great time!

VI. Over-all Evaluation/Results:
This social was attended by a huge number of participant, and likely seems to be the most popular event of the year. The representatives from Provenance appeared to be pleased with how everything flowed, and those from TBP at the event were able to enjoy quality food, golfing, and other games.

**Actives:** Amber Dressler, Ganix Ledezma, Stephen Tung (officer), Adam Thompson (officer), Gary Yen (officer), Patrick Harold (officer), Stefan Bordovsky (officer), Elaine Lui (officer), Belle Parizot (officer), Nathan Bussell (officer)

DESCRIPTION:

I. General Description:
Candidates, actives, officers, and advisors all went to Posse East. The main reason for meeting was to give the candidates an opportunity to get signatures from other actives, officers, and advisors for their signature blocks.

II. Purpose & Relationship to Objectives of TBP:
The purpose of the event was twofold. Firstly, it functioned to support the social pillar of Tau Beta Pi by providing a space for candidates, actives, officers, and advisors to get to know one another. Secondly, it gave candidates the opportunity to help complete their signature block, which is one of the requirements for initiation.

III. Organization & Administration:
The social coordinators communicated with the advisors to plan a convenient date and time for the event. Other than that, there was no administration other than sign-on for social points.

IV. Cost & Personnel Requirements:
Advisors provided some food for those attending the event. There were no other associated costs.

V. Special Problems:
None. The event went very smoothly and everyone seemed to have a great time!

VI. Over-all Evaluation/Results:
The event went very well. The candidates enjoyed socializing, eating some food that was provided by the faculty advisors, and getting signatures.

**Actives:** Amber Dressler, Bryan Luu, Daniel Victory, Kyle Ray, Daniela Barrios Santos, Adam Thompson (officer), Patrick Harold (officer), Gary Yen (officer), Elaine Lui (officer), Stefan Bordovsky (officer), Grant Gibson (officer), Andrew Yeang (officer), Stephen Tung (officer), Joe Retter (officer), Belle Parizot (officer), Inaya D'Souza (officer), Samantha Harris (officer), Carol Huang (officer), Nathan Bussell (officer), Emily Dukes (officer), ChoongSze Lee (officer)

Members: 9
Electees: 4

(List of names is included below.)

Average number of hours per person
Organizing: 1
Participating: 2

DESCRIPTION:

I. General Description:
We ventured to Zilker Park for some to play ultimate frisbee and others to relax on the grass and enjoy the beautiful fall weather.

II. Purpose & Relationship to Objectives of TBP:
The organized sports portion of the Zilker social served as a teambuilding exercise for candidates and officers, while the relaxing-on-the-grass activity provided attendees the time to know each other on a more personal level. All around, the social event helped build relationships between members—a necessity for a healthy organization.

III. Organization & Administration:
The social coordinators sent out a signup form and organized driving arrangements, while candidates and officers came together to provide equipment for the evening and to organize teams for sports.

IV. Cost & Personnel Requirements:
No costs incurred.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
We had a great turnout and were able to field two teams for ultimate frisbee. We found plenty of space at Zilker Park, and we set up a field using cones one of the candidates brought. The weather was perfect for being outdoors, and it seemed like all of the folks in attendance appreciated getting outside on such a lovely day.

Average number of hours per person

Organizing: 0
Participating: 2

DESCRIPTION:

I. General Description: We went to Posse East, a local bar and grill. We participated in the trivia night they had there. We answered eight rounds of ten questions each based on various topics. We got free chips and salsa due to several members buying food.

II. Purpose & Relationship to Objectives of TBP: In competing in the trivia event, we tested our knowledge of obscure facts and events.

III. Organization & Administration: Event is organized entirely by Posse East.

IV. Cost & Personnel Requirements: None. Chips and salsa are typically only available if food is purchased but many people purchase food independently of Tau Beta Pi so no money is spent.

V. Special Problems: None.

VI. Over-all Evaluation/Results: We bonded over each person’s unique perspective that allowed them to answer specific questions that nobody else could.

Candidates: Bailey Sikorski, Alyssa Linares, Kathryn Loeffler, Ryan Goerlitz, Erik Ballesteros, Ryan Boehm, Diana Zhang, Kaylee Clatanoff

Actives: Adam Thompson (officer)
I. General Description:
This meeting was the fourth general meeting of the semester. Electees turned in their completed signature blocks and took a Constitution Quiz over the history of Tau Beta Pi and the Texas Alpha chapter bylaws. After the electees finished their quizzes, officers then made announcements regarding the planned events for the week (until the next general meeting), including upcoming social events, service events, team service events, internal fundraising events, and professional development opportunities. For the last half of the meeting, two representatives from Capital One led a presentation and Q&A session on the market of the company, financial tips, and an overview of their general career paths and experiences.

II. Purpose & Relationship to Objectives of TBP:
The purpose of general meetings is to keep active members and candidates informed, and to encourage camaraderie and networking within the Tau Beta Pi membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

III. Organization & Administration:
This event was organized by TBP TX-A with two representatives from Capital One in attendance.

IV. Cost & Personnel Requirements:
Food was provided by TBP TX-A for those in attendance.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
The fourth general meeting ran smoothly, although due to the room change for the meeting and the less-than-optimal location (attendees had to walk around large construction zones to find the building), this meeting had a lower Active membership attendance than previous meetings did. Members and electees in attendance were engaged during the Q&A session, and overall, the representatives were happy with the questions and commentary from our membership. Although this room was larger and was able to accommodate more members, we will look into switching rooms for future meetings.
to a more convenient location.

Actives:
Kyle Ray, Jesse Xue, Daniel Victory, Amber Dressler, Jena Ziesmer, Aadil Pappa, Ganix Ledezma, Emily Oertli, Samantha Kambo

Number of persons who participated in this project
(List of names is included below.)

Members: 14   Electees: 2

Average number of hours per person

Organizing: 1   Participating: 1

DESCRIPTION:

I. General Description:
We set up two different consoles on split screens of the same projector and played Project M and Mario Kart with candidates after our fourth general meeting.

II. Purpose & Relationship to Objectives of TBP:
Our video game night served as a friendly means of competition between candidates and officers and helped our members bond over adrenaline rushes and the feeling of defeat at the hands of our social coordinators (who are apparently unstoppable at Nintendo games). Such bonding, as with all our other social activities, promotes unity amongst our members and hopefully encourages candidates to continue the pledging process as induction grows ever nearer.

III. Organization & Administration:
The social coordinators set everything up with some help from the TBP President and Candidate Secretary, as well as with the assistance and equipment of one candidate who keeps Super Smash Bros in his backpack at all times.

IV. Cost & Personnel Requirements:
No costs--the social coordinators and one of the candidates brought all the electronics needed to have two games running simultaneously.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
Everyone who showed up to the game night had several chances to play one of two games, and those who participated seemed to enjoy their time playing. The event was a nice break from what was otherwise a dreary week--exactly the sort of outcome we had hoped.

Candidates: Edmond Xue, Rachael Fiala, Arijit Bhuyan, Bailey Sikorski, Paul Lee, Mark Macnoll, Angel Zhang, Justin Leung, Salil Deshpande, Jihwan Lee, Kevin Lee, Graham Reitz, Mohammad Behnia, James Albritton

**DESCRIPTION**:  

**I. General Description**:  
This meeting was the first actives meeting of the semester, which, traditionally in the TX-A chapter, is the meeting we evaluate the candidates’ character. The officers then went over the planned events for the week (until the next general meeting), including upcoming social events, service events, internal fundraising events, and professional development opportunities. We also discussed the new format for committees for the next semester. After that, we displayed pictures of each candidate to raise any individual character concerns. For the last half of the meeting, a representative from Big Red Dog spoke about her experiences within the company.

**II. Purpose & Relationship to Objectives of TBP**:  
The purpose of the actives meetings is to evaluate the electees’ character before they are initiated as it is one of the two specific qualities an undergraduate engineering student must possess for TBP membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

**III. Organization & Administration**:  
This event was organized by TBP TX-A with two representatives from Big Red Dog in attendance.

**IV. Cost & Personnel Requirements**:  
Food was provided by TBP TX-A for those in attendance.

**V. Special Problems**:  
There were no special problems for the actives meeting

**VI. Over-all Evaluation/Results**:  
The actives meeting ran very smoothly, and members and electees in attendance were engaged during the Q&A session. The representatives were very impressed with the questions and commentary from our membership, and the meeting finished on time and on a positive note. We also took a group picture with the Big Red Dog representatives per their request.
Candidates:

Actives:
Kyle Ray, Daniel Victory, Amber Dressler, Daniel He, Zige Zhang, Jianming Chen, Mark Li, Colton Andrews, Matthew Charlton, Brett Denkler, Samantha Kambo, Louis Kirkley, Ganix Ledeza, Kevin Li, Ryotaka Matsumoto, Eley Ng, Aadil Pappa, Dainah Pham, Justin Zhong, Jena Ziesmer, Brandon Kerbow, Alex Hopson, Brandon Smith, Josh Bennett, Elaine Lui, Stephen Tung, ChoongSze Lee, Gary Yen, Inaya D'Souza, Emily Dukes, Adam Thompson, Grant Gibson, Stefan Bordovsky, Patrick Harold, Belle Parizot, Joe Retter, Samantha Harris, Andrew Yeang

Members: 10 Electees: 2

Average number of hours per person
Organizing: 0 Participating: 0.5

DESCRIPTION:

I. General Description:
Before the semesterly actives meeting, we played telephone charades and then proceeded to attend the corporate supporter part of the meeting following the social.

II. Purpose & Relationship to Objectives of TBP:
The secret social helped to fulfill the social pillar of Tau Beta Pi while helping the candidate acquire some of their last social points before initiation. They (the candidates) seemed to bond and enjoy themselves.

III. Organization & Administration:
The social coordinators set everything up, though minimal planning/preparation time needed.

IV. Cost & Personnel Requirements:
No costs were associated with the event.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
Although only a small number of candidates showed up, those who did had a great time. Telephone charades was a new game for many of them.

Candidates: Bailey Sikorski, Hannah Wang, Yanan Wang, Marjorie Dininger, Arijit Bhuyan, Edmond Xue, Atul Nayak, Christina Edgar, Mark Stahl, Justin Leung

Organizing: 0
Participating: 1.5

DESCRIPTION:

I. General Description:
We played squash at UT’s Rec Center since the originally-planned Greenbelt hike was rained out.

II. Purpose & Relationship to Objectives of TBP:
The event helped promote candidate-officer unity through a healthy dose of competition and helped candidates get their final social points before initiation.

III. Organization & Administration:
A few minutes were spent contacting all candidates signed up for the Greenbelt social and letting them know about the change of plans.

IV. Cost & Personnel Requirements:
None.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
The two candidates seemed to have a fun time learning how to play squash, but they were no match for social coordinator Stefan Bordovsky.

Candidates: Bailey Sikorski, Mohammad Behnia

Actives: Stefan Bordovsky (officer)

DESCRIPTION:

I. General Description:
Candidates met at someone’s apartment to collectively work on their bent’s prior to initiation requirements being due.

II. Purpose & Relationship to Objectives of TBP:
The bent polishing party helped candidates make progress on their rough-cast bents before their due date the following general meeting. Also, the social helped to fulfill the social pillar of Tau Beta Pi while giving the candidates an opportunity to acquire some of their last social points before initiation. They (the candidates) seemed to bond and enjoy themselves.

III. Organization & Administration:
The social coordinators set everything up. The main organization responsibility was finding a host for the party.

IV. Cost & Personnel Requirements:
Some pizza was provided for the candidates at the end of the social. It costed $45.39 and was paid for by the Texas Alpha chapter of Tau Beta Pi (our chapter).

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
Many candidates came to the event and really seemed to enjoy talking to each other. Like previous years, the event was successful.

Candidates: Miguel Armenta Ochoa, Bailey Sikorski, Marjorie Dininger, Erik Ballesteros, Christina Edgar, Michael Chen, Tori Gahagan, Carina Tran, Yanan Wang, Mark Macnoll, Graham Reitz, Michael Bloom, Connor Kraus, Mohammad Behnia, Diana Zhang, Grace Zhuang, Angela Liu

**DESCRIPTION:**

**I. General Description:**
We went to get Boba tea as an impromptu social (a social to help candidates that need their last social points shortly before the due date for social points).

**II. Purpose & Relationship to Objectives of TBP:**
This event helped to fulfill the social pillar of Tau Beta Pi, while also giving candidates the opportunity to get to know one of their social coordinators on a more personal level (given the small number of event participants). However, the event’s main purpose was to help give the candidates that came highly needed social points for initiation.

**III. Organization & Administration:**
The only organization required was communicating with the candidates that needed social points and planning a meeting location from which we walked over to get the Boba.

**IV. Cost & Personnel Requirements:**
The drinks costed a total of $12.76. This was provided for by our chapter of TBP (Texas Alpha Chapter).

**V. Special Problems:**
None.

**VI. Over-all Evaluation/Results:**
The two candidates that came to the event really enjoyed the drinks and were able to hit it off for most of the social time.

**Candidates:** Michael Chen, Cynthia Chu

DESCRIPTION:

I. General Description:
We went to the University of Texas University Union building bowling alley and played one game each. Candidates, actives, and officers came out to the event.

II. Purpose & Relationship to Objectives of TBP:
Tuesday Night Bowling at the Union gave TBP members and candidates some time to destress from the rest of their weekly activities and gave candidates the opportunity to finish off some of their social points needed for initiation.

III. Organization & Administration:
The social coordinators set everything up. No reservations were needed for the events, so organization was quite simple.

IV. Cost & Personnel Requirements:
The event costed as total of $30. This was provided for by our TBP Chapter (Texas Alpha Chapter).

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
A decent amount of candidates, as well as some actives, came to the event. The bowling games were competitive, so everybody seemed to enjoy themselves.

Project name: Burger Burn #3

Date(s) of Project: 11/9/2016

Project area: Fundraising

Number of persons who participated in this project
(List of names is included below.)

Members: 13  Electees: 11

Average number of hours per person

Organizing: 2  Participating: 2

DESCRIPTION:

I. General Description:
We ran our traditional fundraising event: the Burger Burn. During this event, we set up two grills, a tent, and several tables in front of our engineering buildings. We then cooked beef burgers, veggie burgers, and hot dogs and sold these items, along with chips and drinks, to students and faculty that passed by during lunch hours.

II. Purpose & Relationship to Objectives of TBP:
This event has been our main source of fundraising for the Texas Alpha chapter. We put the profits from our Burger Burns towards our Scholarship Endowment Fund.

III. Organization & Administration:
This event was organized in conjunction with the Fire Safety, who approved our use of a propane grill to cook our food. The event was also organized in conjunction with Student Activities, who allowed us to reserve the space necessary to hold the event, and Environmental Health and Safety, who made sure that we were following the necessary codes and restrictions.

IV. Cost & Personnel Requirements:
All food and non-food items were purchased from Sam’s Club. We asked that officers help out, and about half of them did for over an hour. We encouraged candidates and actives to help out as well in an effort to fulfill point requirements for the semester. We

V. Special Problems:
It was a particularly windy day. The tent and tables needed extra security in order to not be blown away.

VI. Over-all Evaluation/Results
The Burger Burn effort was exemplary. This was the second of four Burger Burns planned for the semester. Our net profits was about $300, which is very good when we look at our history for the previous year where most burger burns made profits in the $200-$300 range. The use of the Square card reader has been very helpful because it allowed us to serve food to people who only had credit or debit card as a method of payment. For some reason, hot dogs have not sold
nearly as well as they have in the past. For this reason, we may need to reconsider buying as many or any at all for all the remaining burger burns.

**Candidates:** Alyssa Linares, Mark Macnoll, Olivia Schmitz, Bailey Sikorski, Angel Zhang, Christina Edgar, Ethan Freeburg, Edmond Xue, Mohammed Behnia, Nicholas Possis, Diana Zhang,

**DESCRIPTION**:

**I. General Description:**
This meeting was the fifth general meeting of the semester, and all requirements for initiation were due. Electees turned in their polished bents and each bent was graded according to specific guidelines. Officers made announcements regarding the upcoming banquet and reminded electees of the time and location of Initiation. For the last half of the meeting, one representative from Lawrence Livermore National Laboratory led a presentation and Q&A session on the opportunities available and the different research focuses within the lab.

**II. Purpose & Relationship to Objectives of TBP:**
The purpose of general meetings is to keep active members and candidates informed, and to encourage camaraderie and networking within the Tau Beta Pi membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

**III. Organization & Administration:**
This event was organized by TBP TX-A with one representative from Lawrence Livermore National Laboratory in attendance.

**IV. Cost & Personnel Requirements:**
Food was provided by TBP TX-A for those in attendance.

**V. Special Problems:**
None.

**VI. Over-all Evaluation/Results:**
The fifth general meeting ran smoothly. Due to the end of the semester, the announcements were sparse and mostly revolved around continued involvement for the next semester and the upcoming initiation, elections, and banquet. The representative from LLNL was very informative and receptive to student questions regarding what it is like to work at a national laboratory.

To celebrate newly initiated actives and graduating seniors

III. Organization & Administration:
Organization of the banquet required asking vendors for quotes, booking the banquet slot in time (one month ahead at least), making sure headcount is accurate, and making sure food/accomodations are provided.

IV. Cost & Personnel Requirements:
$3000 = $1500 for the venue on a Friday night + $1500 for food (around $25 per person)

V. Special Problems:
None.

VI. Overall Evaluation/Results:
The banquet was a success! The view on the lake was beautiful, the venue was set up well, and there was enough delicious food for everybody.

Actives:
Chooongsze Lee, Belle Parizot, Stefan Bordovsky, Andrew Yeang, Salil Deshpande, Weston Hill, Elaine Lui, Bailey Sikorski, Jesse Xue, Erik Ballesteros, Daniel Teal, Cynthia Chu, Eden Williams, Adam Thompson, Patrick Harold, Ryan Boehm, Grace Zhuang, Amber Dressler, Mark Macnoll, Carina Tran, Tori Gahagan, Carol Huang, Allen Thai, Olivia Schmitz, Hannah Wang, James Albritton, Aadil Pappa, Ethan Freeburg, Juan Trejo, Miguel Armenta Ochoa, Gary Yen, Matthew Brady, Edmond Xue, Samantha Harris, Emily Dukes, Stephen Tung, Joe Retter, Angela Liu, Jihwan Lee, Michael Chen, Ganix Ledezma, Kevin M. Chapter Project Report

Project name: Burger Burn #4

Date(s) of Project: 11/30/2016

Project area: Fundraising

Number of persons who participated in this project
(List of names is included below.)

Members: 22  Electees: 0

Average number of hours per person
Organizing: 3  Participating: 1

DESCRIPTION:

I. General Description:
We ran our traditional fundraising event: the Burger Burn. During this event, we set up a grill, a tent, and several tables in front of our engineering buildings. We then cooked beef burgers, veggie burgers, and hot dogs and sold these items, along with chips and drinks, to students and faculty that passed by during lunch hours.

II. Purpose & Relationship to Objectives of TBP:
This event has been our main source of fundraising for the Texas Alpha chapter. We put the profits from our Burger Burns towards our Scholarship Endowment Fund and fund our other chapter events including socials, service events, and professional development events.

III. Organization & Administration:
This event was organized in conjunction with the Fire Safety, who approved our use of a propane grill to cook our food. The event was also organized in conjunction with Student Activities, who allowed us to reserve the space necessary to hold the event, and Environmental Health and Safety, who made sure that we were following the necessary codes and restrictions.

IV. Cost & Personnel Requirements:
All food and non-food items were purchased from Sam’s Club. We required all officers to help out for at least an hour for each Burger Burn, and we encouraged candidates and actives to help out as well in an effort to fulfill point requirements for the semester.

V. Special Problems:
No special problems were encountered.

VI. Over-all Evaluation/Results:
The Burger Burn effort was exemplary. This was the first of four Burger Burns planned for the semester. Our net profits was about $250, which is very good when we look at our history for the previous year where most burger burns made profits in the $200-$300 range. The use of the Square card reader has been very helpful because it allowed us to serve food to people who only had credit or debit card as a method of payment. For some reason, guacamole has not sold
nearly as well as it had in the past. For this reason, we may need to reconsider selling it for all the remaining burger burns. We are planning to add Venmo as a use of payment as many college students use this application.

Candidates:

**Actives:** Andrew Yeang, Stephen Tung, Grant Gibson, Gary Yen, Stefan Bordovsky, Nathan Bussell, Kaylee Clatanoff, Tori Gahagan, Hannah Wang, Grace Zhuang, Max Williams, Zeke Chan, Peili Lee, Patrick Harold, Bailey Sikorski, Ethan Freeburg, Zige Zhang, Kyle Dalal, Adam Thompson, Miguel Armenta Ochoa, Samantha Kambo, Angela Liu

Project name: Trivia Night
Date(s) of Project: 11/30/2016
Project area: Chapter/Social

Number of persons who participated in this project
Members: 2  Electees: 0
(List of names is included below.)

Average number of hours per person
Organizing: 0  Participating: 2

DESCRIPTION:

I. General Description: We went to Posse East, a local bar and grill. We participated in the trivia night they had there. We answered eight rounds of ten questions each based on various topics. We got free chips and salsa due to several members buying food.

II. Purpose & Relationship to Objectives of TBP: In competing in the trivia event, we tested our knowledge of obscure facts and events.

III. Organization & Administration: Event is organized entirely by Posse East.

IV. Cost & Personnel Requirements: None. Chips and salsa are typically only available if food is purchased but many people purchase food independently of Tau Beta Pi so no money is spent.

V. Special Problems: None.

VI. Over-all Evaluation/Results: We bonded over each person’s unique perspective that allowed them to answer specific questions that nobody else could.

Candidates:

Project area: Education/Professional Development

Number of persons who participated in this project
(List of names is included below.)

Members: 28  Electees: 0

Average number of hours per person

Organizing: 1  Participating: 1

DESCRIPTION:

I. General Description: The actives meeting was the final meeting of the semester. We recognized the scholarship winners and we elaborated on the new committee structure.

II. Purpose & Relationship to Objectives of TBP: The event furthers our desire for excellence and character by recognizing those who excel. It also strengthens TBP’s structure by increasing our capabilities to do events and spread our message.

III. Organization & Administration: The room was booked by Andrew Yeang.

IV. Cost & Personnel Requirements: Raising Cane’s was provided, which cost $338.57.

V. Special Problems: We were initially locked out of the room but we got an ETC resident to unlock it. This delayed our meeting by 10 minutes. Raising Cane’s was also 30 minutes late.

VI. Over-all Evaluation/Results: The event went well despite the glitches. The scholarship winners were properly recognized, and people seemed interested in the committee structure.

Candidates:

Actives: Aadil Pappa, Lianne Martin, Salil Deshpande, Carol Huang, Mark Stahl, Stephen Tung, Tori Gahagan, Bailey Sikorski, Miguel Armenta Ochoa, Joe Retter, Amber Dressler, Inaya D’Souza, Kaylee Clatanoff, Hannah Wang, Angela Liu, Zige Zhang, Peili Lee, Ethan Freeburg, Zeke Chan, Adam Thompson, Samantha Harris, Andrew Yeang, Patrick Harold, Andrew Yeang, Gary Yen, Emily Dukes, Grace Zhuang

Project name: Burger Burn #1

Date(s) of Project: 2/22/2017

Project area: Fundraising

Number of persons who participated in this project
Members: 22  Electees: 0
(List of names is included below.)

Average number of hours per person
Organizing: 3  Participating: 1

DESCRIPTION:

I. General Description:
We ran our traditional fundraising event: The Burger Burn. During this event, we set up a grill, a tent, and several tables in front of our engineering buildings. We then cooked beef burgers, veggie burgers, and hot dogs and sold these items, along with chips and drinks, to students and faculty that passed by during lunch hours.

II. Purpose & Relationship to Objectives of TBP:
This event has been our main source of fundraising for the Texas Alpha chapter. We put the profits from our Burger Burns towards our Scholarship Endowment Fund and fund our other chapter events including socials, service events, and professional development events.

III. Organization & Administration:
This event was organized in conjunction with the Fire Safety, who approved our use of a propane grill to cook our food. The event was also organized in conjunction with Student Activities, who allowed us to reserve the space necessary to hold the event, and Environmental Health and Safety, who made sure that we were following the necessary codes and restrictions.

IV. Cost & Personnel Requirements:
All food and non-food items were purchased from Sam’s Club. We required all officers to help for at least an hour for each Burger Burn, and we encouraged candidates and actives to help as well in an effort to fulfill point requirements for the semester.

V. Special Problems:
There was a complication with the fire marshal because the propane tank was leaking, but we let the propane slowly leak out and he verified the safety of the situation.

VI. Over-all Evaluation/Results:
The Burger Burn effort was exemplary. This was the first of six Burger Burns planned for the semester. Our net profits were about $250, which is very good when we look at our history for the previous year where most burger burns made
profits in the $200-$300 range. The use of the Square card reader has been very helpful because it allowed us to serve food to people who only had credit or debit card as a method of payment. We added Venmo this semester which has proved to be successful as many college student was able to purchase food with money through their mobile devices. We tried using a second grill from ASME, but it was not as successful because more help was needed to set-up and clean-up.

Actives: Grant Gibson, Kaylee Clatanoff, Tori Gahagan, Hannah Wang, Grace Zhuang, Zeke Chan, Peili Lee, Patrick Harold, Bailey Sikorski, Ethan Freeburg, Zige Zhang, Adam Thompson, Miguel Armenta Ochoa, Angela Liu, Ryan Goerlitz, Jesse Xue, Mark Metzger, Quynh Nguyen

**DESCRIPTION:**

I. **General Description:** This event was designed to get people to work on their bents and to receive feedback about the bents.

II. **Purpose & Relationship to Objectives of TBP:** Bent polishing is a requirement of our chapter. Having a designated time to work on it and for officers to critique the bents was helpful for the candidates.

III. **Organization & Administration:** The event was held at the apartment of one of our officers.

IV. **Cost & Personnel Requirements:** The cost of chips and drinks is $15.94

V. **Special Problems:** None

VI. **Over-all Evaluation/Results:** The event went well. Many people had remarkable bent improvement.

**Candidates:** Caroline Leonard, Dustin Forsythe, Huan Nguyen, John Liou, Jason Ngo, Madeline Lincoln, Hayden Lydick, Alex Sirgo, Emily Golla, Ben Simon, Catherine Xu

**Actives:** Miguel Armenta Ochoa(officer), Bailey Sikorski(officer), Zige Zhang(officer), Michael Chen(officer), Ethan Freeberg(officer)
The Tau Beta Pi Association
Chapter Project Report

Chapter: TX-A
Project number: New: X
Recurring:

Project name: General Meeting 1

Date(s) of Project: 02/16/2017

Project area: Meetings

Number of persons who participated in this project
Members: 44   Electees: 31
(List of names is included below.)

Average number of hours per person
Organizing: 1.5/officer   Participating: 1

DESCRIPTION:

I. General Description:
This meeting was the first general meeting of the semester. The officers of the TX-A chapter welcomed the new candidates and went over the new TBP committees and the requirements to be on a committee. The officers then went over the events scheduled between this meeting and the next meeting, including upcoming social events, service events, internal fundraising events, and professional development opportunities. We also did an overview of all the firesides for the semester. For the last half of the meeting, a few representatives from BASF gave a presentation about their experiences within the company and answered questions regarding their career and industry.

II. Purpose & Relationship to Objectives of TBP:
The purpose of general meetings is to keep active members and candidates informed, and to encourage camaraderie and networking within the Tau Beta Pi membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

III. Organization & Administration:
This event was organized by TBP TX-A with a few representatives from BASF in attendance.

IV. Cost & Personnel Requirements:
Food was provided by TBP TX-A for those in attendance. All the officers helped set up the meeting room, pick up the food, and clean up the room after the meeting.

V. Special Problems:
None

VI. Over-all Evaluation/Results:
The meeting ran smoothly, and the timing of meeting was perfect. We finished our announcements exactly halfway through the meeting. The members were all engaged and interested in the events and the BASF representative’s presentation.

Candidates: Joann Gu, Mustapha Jolaade, Jason Ngo, Robyn Richmond, Javier Zepeda, Adam Bays, Klarissa Lou, Catherine Xu, Sofiane Achour, Keith Chan, McKenzie Chen, Caroline Leonard, Madeline Lincoln, Nicholas Sutanto, Brian
Gao, John Liou, Keefe Minahan, Matthew Edwards, Shawn George, Akshay Naik, Christian Natajaya, Mohammad Radwan, Alex Sirgo, Dustin Forsythe, Claire Hsu, Daiqi Wang, Emily Golla, Huan Nguyen, Jack Weakley, Matthew Ulrich

Average number of hours per person
Organizing: 1.5/ officer Participating: 1

DESCRIPTION:

I. General Description:
This meeting was the first general meeting of the semester. The officers of the TX-A chapter went over a description of the sig block and bent requirements. The officers then went over the events scheduled between this meeting and the next meeting, including upcoming social events, service events, internal fundraising events, and fireside opportunities. For the last half of the meeting, a few representatives from Sandia National Laboratories gave a presentation about their experiences within the company and answered questions regarding their career and industry.

II. Purpose & Relationship to Objectives of TBP:
The purpose of general meetings is to keep active members and candidates informed, and to encourage camaraderie and networking within the Tau Beta Pi membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

III. Organization & Administration:
This event was organized by TBP TX-A with a few representatives from Sandia National Laboratories in attendance.

IV. Cost & Personnel Requirements:
Food was provided by TBP TX-A for those in attendance. All the officers helped set up the meeting room, pick up the food, and clean up the room after the meeting.

V. Special Problems:
None

VI. Overall Evaluation/Results:
The meeting went off without a hitch. Everything went very smooth and kept right on time. The candidates and actives were very engaged and interested in the upcoming events and the presentation by the corporate speaker from Sandia National Laboratories. Also, the members asked some very intelligent questions that even challenged the speaker, so he had to ask his colleague.

Actives: Matt Charlton, Cynthia Chu, Amber Dressler, Tori Gahagan, Weston Hill, Ganix Ledezma, Elaine Lui, Emily Oretli, Matt Rosenberger, Mark Stahl, Juan Trejo, Stephen Tung, Angel Zhang, Kaylee Clatanoff, Zeke Chan, Ethan Freeburg, Erin Maines, Grace Zhuang, Patrick Harold, Angela Liu, Bailey Sikorski, Samantha Harris, Adam Thompson, Michael Chen, Miguel Armenta Ochoa, Hannah Wang, Peili Lee, Zige Zhang

The Tau Beta Pi Association
Chapter Project Report

Project name: Tau Beta Pi Camping

Date(s) of Project: 03/31/2017 – 04/01/2017

Project area: Social

Number of persons who participated in this project
(List of names is included below.)

Average number of hours per person

DESCRIPTION:

I. General Description:
Tau Beta Pi members travelled to McKinney falls state park for one-night camping. There, members cooked burgers, crossed a river, drove to a water fall, took a picture at the water fall, told and answered riddles with great accuracy, prepared a fire by gathering tinder and kindling, then lighting logs on fire, inflated inflatable beds, slept for short periods of time, awoke, cooked breakfast tacos, swam and ran in the morning, then sadly drove back to the university campus.

II. Purpose & Relationship to Objectives of TBP:
Tau Beta Pi prides itself as an engineering society, and members of a society socialize with each other. To this end, camping provides a comfortable environment for a group of officers, actives, and candidates to learn about each other and generally “socialize.” Furthermore, various social studies suggest that groups bond better when they are subjected to external threats; camping provides a highly-controlled environment where members can bond together by fighting minor challenges, such as repulsing the dark, finding the restroom, or cooking safely. Therefore, no one can deny that camping provides a great and noble method to encourage active participation, the completion of candidacy, and the dedication of officers to the betterment of the society, the school, and all who they will work in the future.

III. Organization & Administration:
This event was organized the by the Special Event Coordinator. At the beginning of the year, a camping spot was selected based on ability to start a fire, proximity, and cost. Advertising for the event started about three weeks before the event. A total of 19 people signed up and 5 dropped. Supplies were bought on the day before, on March 30, 2017. There were five drivers. We departed at 5:00 PM on March 31, 2017 and arrived back at UT close to 12:30 PM on April 1, 2017. Food and materials was bought the night before and packed the day of. Tents were rented from Gregory gym and other organizations.

IV. Cost & Personnel Requirements:
Members and electees were not required to pay, but did have to supply their own sleeping bags, toiletry, and clothing.

The total cost of this event was

- Reservation and entrance fees: $124.00
- Food: $146.34
- Fire logs and fuels: $17.76
Renting Tents: $64.00
Total cost was $352.10.

V. Special Problems:
There were no issues encountered while preparing this event.

VI. Over-all Evaluation/Results:
The event was a wild success.

Candidates:
Jon Butler, Akshay Naik, Jason Ngo, Caroline Leonard, Huan Nguyen, Ben Simon

Actives:
Miguel Armenta Ochoa (Officer), Adam Thompson (Officer), Tori Gahagan, Jesse Xue, Matt Rosenberger, Angela Liu, (Officer), Zige Zhang (Officer), Ethan Freeburg (Officer)

**DESCRIPTION:**

I. **General Description:**
We went to the University of Texas University Union building bowling alley and played for one hour. Candidates, actives, and officers all came to the social after the general meeting.

II. **Purpose & Relationship to Objectives of TBP:**
Bowling at the Union gave TBP members and candidates some time to destress from the rest of their weekly activities and it is also a convenient way for candidates to earn a social point.

III. **Organization & Administration:**
The social coordinators set everything needed to reserve spots in Union at least 24 hours before the event.

IV. **Cost & Personnel Requirements:**
The event costed as total of $60. This was provided for by our TBP Chapter (Texas Alpha Chapter).

V. **Special Problems:**
None.

VI. **Over-all Evaluation/Results:**
A large number of candidates, as well as some officers, came to the event. The bowling games were competitive, so everybody seemed to enjoy themselves.

**Candidates:** Caroline Leonard, Mason Roberts, McKenzie Chen, Keefe Minahan, Joann Gu, Klarissa Lou, Shawn George, Claire Hsu, Catherine Xu, John Liou, Nicholas Sutanto, Brian Gao, Javier Zepeda, Matthew Edwards, Jason Ngo, Shyon Parsa, Angel Zhang

**DESCRIPTION:**

I. **General Description:**
We ran our traditional fundraising event: The Burger Burn. During this event, we set up a grill, a tent, and several tables in front of our engineering buildings. We then cooked beef burgers, veggie burgers, and hot dogs and sold these items, along with chips and drinks, to students and faculty that passed by during lunch hours.

II. **Purpose & Relationship to Objectives of TBP:**
This event has been our main source of fundraising for the Texas Alpha chapter. We put the profits from our Burger Burns towards our Scholarship Endowment Fund and fund our other chapter events including socials, service events, and professional development events.

III. **Organization & Administration:**
This event was organized in conjunction with the Fire Safety, who approved our use of a propane grill to cook our food. The event was also organized in conjunction with Student Activities, who allowed us to reserve the space necessary to hold the event, and Environmental Health and Safety, who made sure that we were following the necessary codes and restrictions.

IV. **Cost & Personnel Requirements:**
All food and non-food items were purchased from Sam’s Club. We required all officers to help for at least an hour for each Burger Burn, and we encouraged candidates and actives to help as well to fulfill point requirements for the semester.

V. **Special Problems:**
Grease fires are still a problem because we try to grill in bulk at the peak hours. We had to stop production three times to let the grease fire die down.

VI. **Over-all Evaluation/Results:**
The Burger Burn effort was exemplary. This was the third of six Burger Burns planned for the semester. Our net profits were about $280, which is very good when we look at our history for the previous year where most burger burns made profits in the $200-$300 range. The use of the Square card reader has been very helpful because it allowed us to serve food to people who only had credit or debit card as a method of payment. We added Venmo this semester which has proved to be successful as many college student was able to purchase food with money through their mobile devices.

Actives: Grant Gibson, Kaylee Clatanoff, Tori Gahagan, Hannah Wang, Grace Zhuang, Zeke Chan, Peili Lee, Patrick Harold, Bailey Sikorski, Ethan Freeburg, Zige Zhang, Adam Thompson, Miguel Armenta Ochoa, Angela Liu, Ryan Goerlitz, Jesse Xue, Joe Retter,

Actives: Adam Thompson (officer), Elaine Lui, Robert Kennedy
Project name: Bubble Soccer Social

Date(s) of Project: 04/09/2017

Project area: Chapter/Social

Number of persons who participated in this project
(List of names is included below.)
Members: 3 Electees: 4

Average number of hours per person
Organizing: 3 Participating: 3

DESCRIPTION:

I. General Description: We played bubble soccer with Lions Club at UT and Honors Business Association

II. Purpose & Relationship to Objectives of TBP: This event was a weekend social that allowed honors engineering students to meet and socialize with service-minded students and other business honors students.

III. Organization & Administration: The bubble soccer social was set up by Lions Club, and Honors Business Association and Tau Beta Pi joined to increase the number of people playing.

IV. Cost & Personnel Requirements: The cost was $20 per person for each of the TBP members. The total cost was $140.

V. Special Problems: None

VI. Over-all Evaluation/Results: The event was extremely fun, and the TBP members had a great time socializing with each other and other UT students from other organizations.

Candidates: Caroline Leonard, Klarissa Lou, Shawn George, Claire Hsu

Actives: Michael Chen (officer), Angela Liu (officer), Miguel Armenta Ochoa (officer)

Project name: Burger Burn #6

Date(s) of Project: 4/26/2017

Project area: Fundraising

Number of persons who participated in this project
(List of names is included below.)

Members: 19 Electees: 0

Average number of hours per person

Organizing: 3 Participating: 1

DESCRIPTION:

I. General Description:
We ran our traditional fundraising event: The Burger Burn. During this event, we set up a grill, a tent, and several tables in front of our engineering buildings. We then cooked beef burgers, veggie burgers, and hot dogs and sold these items, along with chips and drinks, to students and faculty that passed by during lunch hours.

II. Purpose & Relationship to Objectives of TBP:
This event has been our main source of fundraising for the Texas Alpha chapter. We put the profits from our Burger Burns towards our Scholarship Endowment Fund and fund our other chapter events including socials, service events, and professional development events.

III. Organization & Administration:
This event was organized in conjunction with the Fire Safety, who approved our use of a propane grill to cook our food. The event was also organized in conjunction with Student Activities, who allowed us to reserve the space necessary to hold the event, and Environmental Health and Safety, who made sure that we were following the necessary codes and restrictions.

IV. Cost & Personnel Requirements:
All food and non-food items were purchased from Sam’s Club. We required all officers to help for at least an hour for each Burger Burn, and we encouraged candidates and actives to help as well to fulfill point requirements for the semester.

V. Special Problems:
Grease fires are still a problem because we try to grill in bulk at the peak hours. We had to stop production twice to let the grease fire die down. It was also a very windy day so the tent was blowing away and the fire kept getting blown out.

VI. Over-all Evaluation/Results:
The Burger Burn effort was exemplary. This was the third of six Burger Burns planned for the semester. Our net profits were about $270, which is very good when we look at our history for the previous year where most burger burns made profits in the $200-$300 range. The use of the Square card reader has been very helpful because it allowed us to serve
food to people who only had credit or debit card as a method of payment. We added Venmo this semester which has proved to be successful as many college student was able to purchase food with money through their mobile devices.

**Candidates:** Caroline Leonard, Keith Chan, Dustin Forsythe, Shyon Parsa

Organizing: 6
Participating: 50

DESCRIPTION:

I. General Description: Banquet to celebrate everything accomplished by the TBP Texas Alpha Chapter over the course of the semester and to celebrate the initiation of the Spring 2017 TBP Candidates!

II. Purpose & Relationship to Objectives of TBP: Purpose was to give TBP members a fun event to get out, have fun with each other and celebrate a great semester.

III. Organization & Administration: Organized by The Vice President of Operations of the Texas Alpha Chapter. The venue was Scholz Garten and the staff at the venue were very helpful with helping organize and set everything up as well.

IV. Cost & Personnel Requirements: $2,243 was the cost for the entire event. We also had about 6 officers working to plan the event.

V. Special Problems: The food took a little longer than expected to come out. As a result, we were a little behind schedule, but we were able to adjust and work around that scheduling problem.

VI. Over-all Evaluation/Results: Overall, this event was very fun and had a lot of positive feedback! Venue was great and the program for the banquet was very good. Also, everything seemed to go off without a hitch.

Candidates:

Project name: General Meeting 4

Date(s) of Project: 04/06/2017

Project area: Meetings

Number of persons who participated in this project
(List of names is included below.)

Members: 30
Electees: 34

Average number of hours per person

Organizing: 1.5/officer
Participating: 1

DESCRIPTION:

I. General Description:
This meeting was the first general meeting of the semester. The officers of the TX-A chapter went over upcoming requirement deadlines and the team service events. All the team members dressed up according to their team’s theme. The officers then went over the events scheduled between this meeting and the next meeting, including upcoming social events, service events, internal fundraising events, and professional development opportunities. For the last half of the meeting, a few representatives from Fluor gave a presentation about their experiences within the company and answered questions regarding their career and industry.

II. Purpose & Relationship to Objectives of TBP:
The purpose of general meetings is to keep active members and candidates informed, and to encourage camaraderie and networking within the Tau Beta Pi membership. These meetings also serve to introduce the attendees to a career or education path and to cultivate a high standard of professional interest.

III. Organization & Administration:
This event was organized by TBP TX-A with a few representatives from Fluor in attendance.

IV. Cost & Personnel Requirements:
Food was provided by TBP TX-A for those in attendance. All the officers helped set up the meeting room, pick up the food, and clean up the room after the meeting.

V. Special Problems:
None

VI. Over-all Evaluation/Results:
The meeting went smoothly and ran on time. The members really enjoyed the meeting, and it was a success.

DESCRIPTION:

I. General Description: Members of the prestigious and glorious Tau Beta Pi, Texas Alpha chapter embarked on a grand voyage onto Lake Travis using a barge rented from Just For Fun boat rentals. While on the water, we magnificently cooked burgers, tore apart lettuce, carved tomatoes, and cleaved watermelon. Furthermore, we leapt from great heights of the second story of the barge, splashed around in the deep waters below us, and explored the island of savagery before us. Once our conquest was complete, we returned to the dock.

II. Purpose & Relationship to Objectives of TBP:
Humans, as mammals, engage in play to socialize and associate ourselves with groups. To this end, play is an important part of any socialization process. By playing in the water, we further the community objectives of TBP in building a social environment for students who may have trouble expressing themselves in non-technical terms. Furthermore, the implicit danger of water provides a convenient common opponent for the present Tau Bates to unite against. This also celebrated the end of the semester.

III. Organization & Administration:
This event was organized by the Special Events Coordinator. This event was not coordinated with any other UT group.

IV. Cost & Personnel Requirements:
$540.00 – Boat Rental
$123.41 – Food

Attendees were required to pay $10 each.

V. Special Problems:
Because this was the Sunday before finals, many people (~12) dropped out in the preceding week, including many people the day of the event, and especially two drivers. This made scheduling things difficult, and I was forced to use one back up driver. However, the small size was nice. I would suggest moving it up two weeks, so that (1) it would be before initiation and count as a social point and (2) it would be before last week tests and finals.

VI. Over-all Evaluation/Results:
The event was generally considered a success. The attending members were able to increase their friendships. Perhaps
one couple found love.

**Candidates:**
(No candidates were present)

Project name: Capital One Case Interview Workshop

Date(s) of Project: 09/13/2016

Project area: Education/Professional Development

Number of persons who participated in this project
Members: 6
Electees: 3

(List of names is included below.)

Average number of hours per person
Organizing: 5
Participating: 2

DESCRIPTION:

I. General Description:
Capital One presented a case interview workshop in a professional development session. The session was opened up to students outside of TBP at the request of Capital One. The total non-TBP attendance was 13.

II. Purpose & Relationship to Objectives of TBP:
In attending the session, Capital One taught the basics of the case interview and strategies to go about solving them. Additionally, members were shown an example case study and walked through the case interview process.

III. Organization & Administration:
TBP was the organizer for this event, however as aforementioned, the professional development workshop was opened up to non-members.

IV. Cost & Personnel Requirements:
None.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
The two-hour session went smoothly. Participation was somewhat lacking at the beginning, but students became much more involved after beginning the practice case as a group. The attendees learned a lot about the case study overall and the process of interviewing with consulting companies. In the future, it might benefit students to break out into smaller groups and work through each stage of the case interview process together.

**Project name:** Dr. Milliron Fireside

**Date(s) of Project:** 10/18/2016

**Project area:** Varsity Pizza

**Number of persons who participated in this project**
Members: 3  Electees: 9

(List of names is included below.)

**Average number of hours per person**
Organizing: 2.5  Participating: 1

**DESCRIPTION:**

I. General Description:

We met up at a local pizza joint, Varsity Pizza to have a casual conversation with Dr. Milliron. At this event, members and candidates were able to ask Dr. Milliron about what it was like to have a start up company. In addition, members were able to ask what it is like being a professor, and how UT emphasizes excellence in being a good lecturer and researcher.

II. Purpose & Relationship to Objectives of TBP:

The goal of having this fireside was for members and candidates to get the opportunity to talk with a professor in a more casual setting and be able to ask questions about Dr. Milliron’s research and start up company. In addition, it allows the members not from the ChE department to see what is going on in the ChE department.

III. Organization & Administration:

Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:

TBP paid for all its’ members. The cost for all the pizza was $149.

V. Special Problems:

None

VI. Over-all Evaluation/Results:
Members and candidates were able to hear what it’s like to be a professor at different universities and what it’s like to be a part and start a start up company. I’d say it was a very successful fireside. Too many pizzas were ordered, but that is a minor issue.

**Candidates:**
Edmond Xue, Matt Rosenberger, Ryan Boehm, Angel Zhang, Alyssa Linares, Graham Reitz, Mark Stahl, Justin Leung, Rachael Fiala

Organizing: 2.5 Participating: 1

DESCRIPTION:

I. General Description:

We met at GDC and had Fricano’s catered, to have lunch with Dr. Puperi. At this event members and candidates were able to ask Dr. Puperi what it was like to go back to graduate school after being in industry. In addition, members were able to ask what it is like being a professor that is just a lecturer, and what it was like to work for NASA.

II. Purpose & Relationship to Objectives of TBP:

The goal of having this fireside was for members and candidates to get the opportunity to talk with a professor in a more casual setting and be able to ask questions about Dr. Puperi’s time at NASA and being a lecturer professor. In addition, it allows the members not from the BME department to see what is going on in the BME department.

III. Organization & Administration:

Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:

TBP paid for all its’ members. The cost for all the Fricano’s was $140.99.

V. Special Problems:

None

VI. Over-all Evaluation/Results:
I’d say it was a very successful fireside. Candidates and members were able to see what the difference was to go to graduate school after being in industry and the difference in being a professor lecturer instead of a tenured professor.

**Candidates:**  
Bailey Sikorski, Ethan Freeburg, Nicholas Possis, Diana Zhang, Salil Deshpande, Peili Lee, Eden Williams, Kathryn Loeffler, Carina Tran

Project name: Dr. Seepersad Fireside

Date(s) of Project: 11/04/2016

Project area: UTC 1.118

Number of persons who participated in this project
(List of names is included below.)

Members: 3
Electees: 15

Average number of hours per person

Organizing: 2.5
Participating: 1

DESCRIPTION:

I. General Description:

We met at UTC and had Dominos delivered, to have lunch with Dr. Seepersad. At this event members and candidates were able to ask Dr. Seepersad what it was like to write grants and how to be able to be on the cutting edge of research that will solve future problems. In addition, members were able to ask what it is like being a professor and having a family and how to start forming your career even now.

II. Purpose & Relationship to Objectives of TBP:

The goal of having this fireside was for members and candidates to get the opportunity to talk with a professor in a more casual setting and be able to ask questions about Dr. Seepersad’s research as a professor and how she manages work life balance while having a family. In addition, it allows the members not from the ME department to see what is going on in the ME department, and how Dr. Seepersad decided to work here.

III. Organization & Administration:

Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:

TBP paid for all its' members. The cost for all the Dominos was $50.

V. Special Problems:

Ordering Dominos was tricky because they already had a lot of big orders to fill at the time and they wanted the account number that started with 512.555 (----) and I had to search to find the last digits.
VI. **Over-all Evaluation/Results:**

I’d say it was a very successful fireside. Candidates and members were able to see how important it is to work hard now to set their career on track, and that it’s harder to correct it later in life.

**Candidates:**

**Actives:**
Emily Dukes, Elaine Lui, Grant Gibson
Project name: Engineering Futures Session: People Skills

Date(s) of Project: 11/05/2016

Project area: Education/Professional Development

Number of persons who participated in this project
Members: 2  Electees: 9
(List of names is included below.)

Average number of hours per person
Organizing: 6  Participating: 4

DESCRIPTION:

I. General Description:
Stewart Baskin presented a workshop on people skills in an Engineering Futures Session. The session was opened up to students outside of TBP for the first time in chapter history. However, there were no non-TBP attendees.

II. Purpose & Relationship to Objectives of TBP:
In attending the session, Stewart Baskin taught the group about people skills in the workplace and common conflicts that occur. Additionally, students were engaged by working in small groups to learn different conflict resolution methods and communication styles.

III. Organization & Administration:
TBP was the organizer for this event, however as aforementioned, the professional development workshop was opened up to non-members.

IV. Cost & Personnel Requirements:
The total cost for this session was $216.

V. Special Problems:
None.

VI. Over-all Evaluation/Results:
The four-hour session went smoothly. Participation was somewhat lacking at the beginning, but students became much more involved after beginning the practice case as a group. The attendees learned a lot about communication styles in the workplace and the best way to address conflicts. In the future, more advertising should be done prior to the event to obtain non-TBP members. One recommendation would be to incentivize participation by advertising the certificate upon completion of all 5 of the Futures Sessions. Furthermore, TBP members that did sign up prior to the event did not attend. More serious penalties should be determined for this problem.

Candidates:
Mark Strahl, Jihuan Lee, Ethan Freeburg, Daniel Teal, Nicholas Possis, Carina Tran, Hannah Wang, Michael Bloom, Mohammad Behmia.
The Tau Beta Pi Association
Chapter Project Report

Project name: Dr. Gilbert Fireside
Date(s) of Project: 11/9/2016
Project area: Dr. Gilbert's House

Number of persons who participated in this project
(List of names is included below.)
Members: 2
Electees: 3

Average number of hours per person
Organizing: 2.5
Participating: 1.5

DESCRIPTION:

I. General Description:
We went to Dr. Gilbert’s house to talk with a professor in a more casual setting. Upon arriving there we were welcomed into Dr. Gilbert’s living room and were offered cookies, apple cider, and hot chocolate.

II. Purpose & Relationship to Objectives of TBP:
This fireside was to give an opportunity for candidates and active members of TBP to ask questions to a professor about research, what it is like to be a professor, and ask questions about engineering problems.

III. Organization & Administration:
Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:
No cost

V. Special Problems:
None

VI. Over-all Evaluation/Results:
This was my favorite fireside as having it at a professor’s house allowed it to be very casual and it was refreshing to have a discussion with a professor in their home. It made it a more casual environment and candidates and actives felt very free to ask any questions to Dr. Gilbert. Also Dr. Gilbert and his wife were very hospitable and showed genuine concern to answer questions in the best way possible.

Candidates:
Angela Liu, Yanan Wang, Arijit Bhuyan

Actives:
Emily Dukes, Grant Gibson
The Tau Beta Pi Association
Chapter Project Report

Project name: Fireside with Dr. Kenneth Diller

Date(s) of Project: 3/9/2017

Project area: BME 3.206

Number of persons who participated in this project
(List of names is included below.)

Members: 12  Electees: 13

Average number of hours per person 1

Organizing: 3  Participating: 1

DESCRIPTION:

I. General Description:

We met in a conference room in the BME building, where Domino’s pizza was provided. Candidates, Actives, and Officers all sat around a conference table, with Dr. Diller at the head. Dr. Diller gave a presentation of his theory on Science and the Bible, and then opened up the floor to questions.

II. Purpose & Relationship to Objectives of TBP:

This fireside was an opportunity for members of TBP to hear a renowned professor’s point of view on a largely controversial and heated topic: the convergence of faith and science. Students had the chance to hear the professor explain his thesis and then ask questions regarding his life experiences, advice, and points of view.

III. Organization & Administration:

Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:

TBP paid for all its members. $46.67 spent on Domino’s pizza.

V. Special Problems:

None

VI. Over-all Evaluation/Results:

This was an interesting fireside experience. We tried something new, with having a professor come in with a prepared presentation (handouts and everything) on a particular topic. Overall, the event went very smoothly and was a different experience. The topic was intriguing and many interesting points were brought up. However, this is a tricky subject, and perhaps Dr. Diller’s approach was not necessarily what most expected or the most universal for all members attending. Overall, it was a valuable experience and intriguing fireside!

Candidates:

**Actives:**
Grace Zhuang, Patrick Harold, Miguel Armenta Ochoa, Peili Lee, Zeke Chan, Emily Dukes, Matt Rosenberger, Adam Thompson, Grant Gibson, Jesse Xue, Elaine Lui, Angela Liu

**DESCRIPTION:**

I. **General Description:**

We met in a CPE 4.446, which is a nice conference room right next to Dr. Heller’s office. Tiff’s Treats were ordered and provided for all attendees. We sat with Dr. Heller and had the opportunity to hear about his personal experiences in the WWII Holocaust and how this impacted his outlook on the world.

II. **Purpose & Relationship to Objectives of TBP:**

The purpose of this fireside was to give members and candidates in TBP the opportunity to hear from an esteemed professor about his life experiences. Oftentimes, firesides are geared towards academic research, but this fireside gave members the opportunity to hear directly from a survivor of a catastrophic historical event and expand their worldview.

III. **Organization & Administration:**

Not organized in conjunction with another group.

IV. **Cost & Personnel Requirements:**

$33.00

V. **Special Problems:**

None

VI. **Over-all Evaluation/Results:**

This was an absolutely incredible fireside. Everything from the subject of discussion to the atmosphere to the speaker himself was perfect for the occasion. Dr. Heller was very excited to speak with young engineers and share about his
experiences and views. He was very open about his childhood and how it impacted him, and incredibly receptive to questions and discussion.

**Candidates:**
Emily Golla, Catherine Xu, John Liou, Mason Roberts, Keith Chan, Huan Nguyen, Akshay Naik, Shyon Parsa

**Actives:**
Grace Zhuang, Bailey Sikorski, Patrick Harold, Emily Dukes, Grant Gibson, Laura Kenyon, Eden Williams

Project name: Fireside with Dr. Robert Metcalfe

Date(s) of Project: 4/5/2017

Project area: Fireside

Number of persons who participated in this project
(List of names is included below.)

Members: 7  Electees: 7
Organizing: 3  Participating: 1

Average number of hours per person 1

DESCRIPTION:

I. General Description:

We met in a conference room in the BME building, where Potbelly sandwiches were catered. Dr. Metcalfe started off by introducing himself and talking through his lifelong career. Students then spent the rest of the time asking Dr. Metcalfe questions about his career, life, opinions, etc.

II. Purpose & Relationship to Objectives of TBP:

This fireside gave members the opportunity to hear from a professor who has truly made contributions that have changed the modern world. TBP members had the chance to ask Dr. Metcalfe about his life experiences and vision for the future, as well as hear about his career journey.

III. Organization & Administration:

Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:

TBP paid for all its members. $113.80 spent on Potbelly Sandwiches.

V. Special Problems:

None

VI. Over-all Evaluation/Results:

Dr. Metcalfe was an incredible professor to hear from. He’s interesting, a great speaker, thorough in his answers, has a great sense of humor, and has amazing experience to draw from. He was very on-time, early even, and seemed to enjoy himself and the conversation. Members also had good questions to ask. All in all, a wonderful fireside.

Project name: Fireside with Dr. Webber

Date(s) of Project: 4/10/2017

Project area: Fireside

Number of persons who participated in this project
Members: 7  Electees: 8
(List of names is included below.)

Average number of hours per person
Organizing: 3.5  Participating: 2

DESCRIPTION:

I. General Description:

We met at the ETC loading dock, and then carpooled to Dr. Webber's house in Westlake (North Austin). Upon arriving at Dr. Webber's house, we were welcomed in, where Mrs. Julia Webber had prepared drinks, fruit, and other refreshments. We then all sat around their dining room table (Dr. Webber, Mrs. Webber, and the students) and discussed life at UT, Dr. Webber's experiences as an engineer, and how the Webbers came to be where they are today.

II. Purpose & Relationship to Objectives of TBP:

The purpose of this fireside was to give our members the opportunity to hear from a UT alumni about his journey and his work. Dr. Webber has been in our exact shoes before, so this was a great opportunity for students to ask him about his experiences and advice.

III. Organization & Administration:

Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:

$30.00

V. Special Problems:

None

VI. Over-all Evaluation/Results:

This was one of my favorite firesides!!! Dr. Webber and his wife were so welcoming, and it was a lot of fun seeing their house. Both of the Webbers are so much fun, and made an effort to get to know the students and talk about topics that
they thought would be relevant/important for us to hear about. We had a great time, filled with laughter, and got to hear about some incredible experiences from Dr. Webber!

**Candidates:**
Mohammd Radwan, Mustapha Jolaade, Catherine Xu, Robyn Richmond, Sofiane Achour, Akshay Kulkarni, Dustin Forsythe, Kelsey Cavallaro

Participating: 1

**DESCRIPTION:**

I. **General Description:**  
This event was designed for four local/national non-profit groups to come speak to TBP about alternative careers outside of traditional engineering as well as how to volunteer time once they graduate college.

II. **Purpose & Relationship to Objectives of TBP:**  
Professional Development is one of the cornerstones of TBP, and how to go about volunteering one’s time/deciding an alternative engineering career is vital to one’s professional success.

III. **Organization & Administration:**  
This event was held in one of the lecture rooms in the Engineering Quad and representatives from the different non-profit groups were given 5 minutes to explain their organization and then followed by a 30 minute Q&A panel discussion.

IV. **Cost & Personnel Requirements:**  
None. Cookies were donated from Student Engineering Council.

V. **Special Problems:**  
None.

VI. **Over-all Evaluation/Results:**  
Event went great. TBP members loved getting to hear of opportunities for ways to occupy their time in the future.

Project name: Fireside with Dean Wood

Date(s) of Project: 4/12/2017

Project area: Fireside

Number of persons who participated in this project
(List of names is included below.)

Members: 15   Electees: 11

Average number of hours per person

Organizing: 4   Participating: 1.5

DESCRIPTION:

I. General Description:

We met in BME 3.206, which is a nice conference room on the ground floor of the BME building. Dinner was provided (croissant sandwiches, pinwheels, and pita sandwiches). Dean Wood briefly introduced herself, and then from there, students had the opportunity to ask the Dean any questions they had.

II. Purpose & Relationship to Objectives of TBP:

This fireside gave TBP members the chance to hear from the one and only Dean of the Cockrell School of Engineering about why she decided to become the Dean, her vision for the school, her opinion on some recent developments, etc. This was an awesome opportunity to get to know the head of our school!

III. Organization & Administration:

Not organized in conjunction with another group.

IV. Cost & Personnel Requirements:

$93.05

V. Special Problems:

None

VI. Over-all Evaluation/Results:

This was a great fireside! Definitely a unique and valuable opportunity to hear from Dean Wood and discuss with her on not only engineering-related topics, but also administrative decisions that are otherwise not very transparent. It’s clear that
Dean Wood is passionate about getting to know students individually, hearing everyone’s voice, and understanding what’s going on in the Cockrell School.
