

The Tau Beta Pi Association

Chapter Project Report

Chapter: Wyoming Alpha
Project number: 33
<input type="checkbox"/> New Project <input checked="" type="checkbox"/> Old Project

Project name: Fall and Spring Graduation Stoles

Date(s) of Project: 12/08/01
05/18/02

Target Audience: Community University Profession (Engineering) Chapter Other:

Participants in project:

Members: 2 Electees: 0

Participants: David Bishop, Ryan Kobbe

Hours spent on this project:

Organizing: 2 Participating: 2

DESCRIPTION OR INDEX TO ATTACHED DESCRIPTION:

I. General Description:

Graduating active members of Tau Beta Pi were issued a TBP stole to wear during the graduation ceremony. Some students purchased their stoles for commemoration.

II. Purpose & Relationship to Objectives of TBP:

Stoles are a way to honor TBP members for their scholastic achievements and for their contributions to the chapter here at the University of Wyoming. It also promotes the visibility of TBP among those who attend the graduation ceremony.

III. Organization & Administration: In conjunction with another group? Yes No

Organization consisted of numbering the stoles, setting up a time and place to issue them, handing them out, and collecting the stoles after the ceremonies.

IV. Cost & Personnel Requirements:

Costs: \$120 for new stoles

Personnel: Two members to distribute and collect stoles

V. Special Problems: None

VI. Overall Evaluation/Results (Be specific):

Stoles are a good way to acknowledge the efforts put forth by graduates and promote the concept of excellence in engineering to everyone who attends the graduation ceremony. However, not all Tau Beta Pi members are issued a stole. The chapter placed a tutoring requirement on members in order to receive their stole. Requiring members to *earn* their stole has continued to maintain a fair way to reward active members in the chapter.
